Number	Question	CE	References	PQ EI (%)	S/U/N	Applicability (%)	Toggle
8.053	Does the aerodrome regulatory authority develop a periodic training plans detailing and prioritizing the type of training to be provided during the established period?	4	AGA	21.05	4/15/0	100	<input checked="" type="checkbox"/>
8.055	Is the training programme appropriately implemented?	4	AGA	15.79	3/16/0	100	<input checked="" type="checkbox"/>
8.147	Does the State ensure that aerodrome operators have a process for determining and providing relevant information that a runway, or part of, may be slippery when wet, including the minimum friction level for reporting of slippery runway conditions and the type of friction measuring device used?	7	AGA	5.26	1/18/0	100	<input checked="" type="checkbox"/>
8.165	If the requirements for RESAs have not been implemented at all aerodromes open to public use, has the State established and implemented a mechanism to satisfy itself that the runway surroundings are safe for use by aircraft in the event of an aircraft overrunning or undershooting the runway?	6	AGA	22.22	4/14/1	94.74	<input checked="" type="checkbox"/>

8.257	Has the State established and implemented a mechanism to ensure that aerodrome operators maintain good friction characteristics and low rolling resistance on runways?	7	AGA	10.53	2/17/0	100	<input checked="" type="checkbox"/>
8.295	When developing aerodrome emergency plans, does the State require and ensure that aerodrome operators observe human factors principles?	6	AGA	10.53	2/17/0	100	<input checked="" type="checkbox"/>
8.315	Does the State ensure, on a continuing basis, that aerodrome operators provide training for fire fighting personnel, including live fire drills?	7	AGA	15.79	3/16/0	100	<input checked="" type="checkbox"/>
8.373	Has the State established a process to review the validity of using an aeronautical study or risk assessment to justify an application for an exemption or exception as well as the continuing need?	5	AGA	5.26	1/18/0	100	<input checked="" type="checkbox"/>
8.375	Has the State established and implemented a mechanism to assess the outcomes of the conduct of risk assessments or aeronautical studies?	7	AGA	10.53	2/17/0	100	<input checked="" type="checkbox"/>

8.377	Does the State ensure that the outcomes of risk assessments or aeronautical studies, in the form of exceptions, are published in a document which is publicly accessible, such as the State AIP?	8	AGA	21.05	4/15/0	100	<input checked="" type="checkbox"/>
8.407	Does the State ensure that, as part of their SMS, aerodrome operators monitor and analyse safety occurrences and trends and take appropriate action?	8	AGA	15.79	3/16/0	100	<input checked="" type="checkbox"/>
8.413	Has the aerodrome regulatory authority developed and implemented a process to take actions, including enforcement, if deficiencies found during surveillance activities are not rectified within a reasonable time by the aerodrome operator?	8	AGA	21.05	4/15/0	100	<input checked="" type="checkbox"/>

## AGA

**Implementing aerodrome certification requirements**

**Establishing and implementing a formal surveillance programme for certified aerodromes, with associated procedures and plans**

**Establishing and implementing a quality system to ensure the accuracy, consistency, protection and integrity of aerodrome-related safety data published in the State's AIP**

**Ensuring that aerodrome operators receiving international flights have implemented an SMS acceptable to the State**

**Establishing and implementing integrated strategies, including Runway Safety Teams, for runway incursions and collisions avoidance at aerodromes**
