 **ANSP**
Dutch Caribbean Air Navigation Service Provider

Formalization of already existing trajectory TBG - SCAPA

Since 1st half of 2011, DC-ANSP agreed with COPA Airlines to allow a trajectory for their new service from Panama to St. Martin, between UBLAX and SCAPA, with the condition that this trajectory will become available to all users as soon as possible.

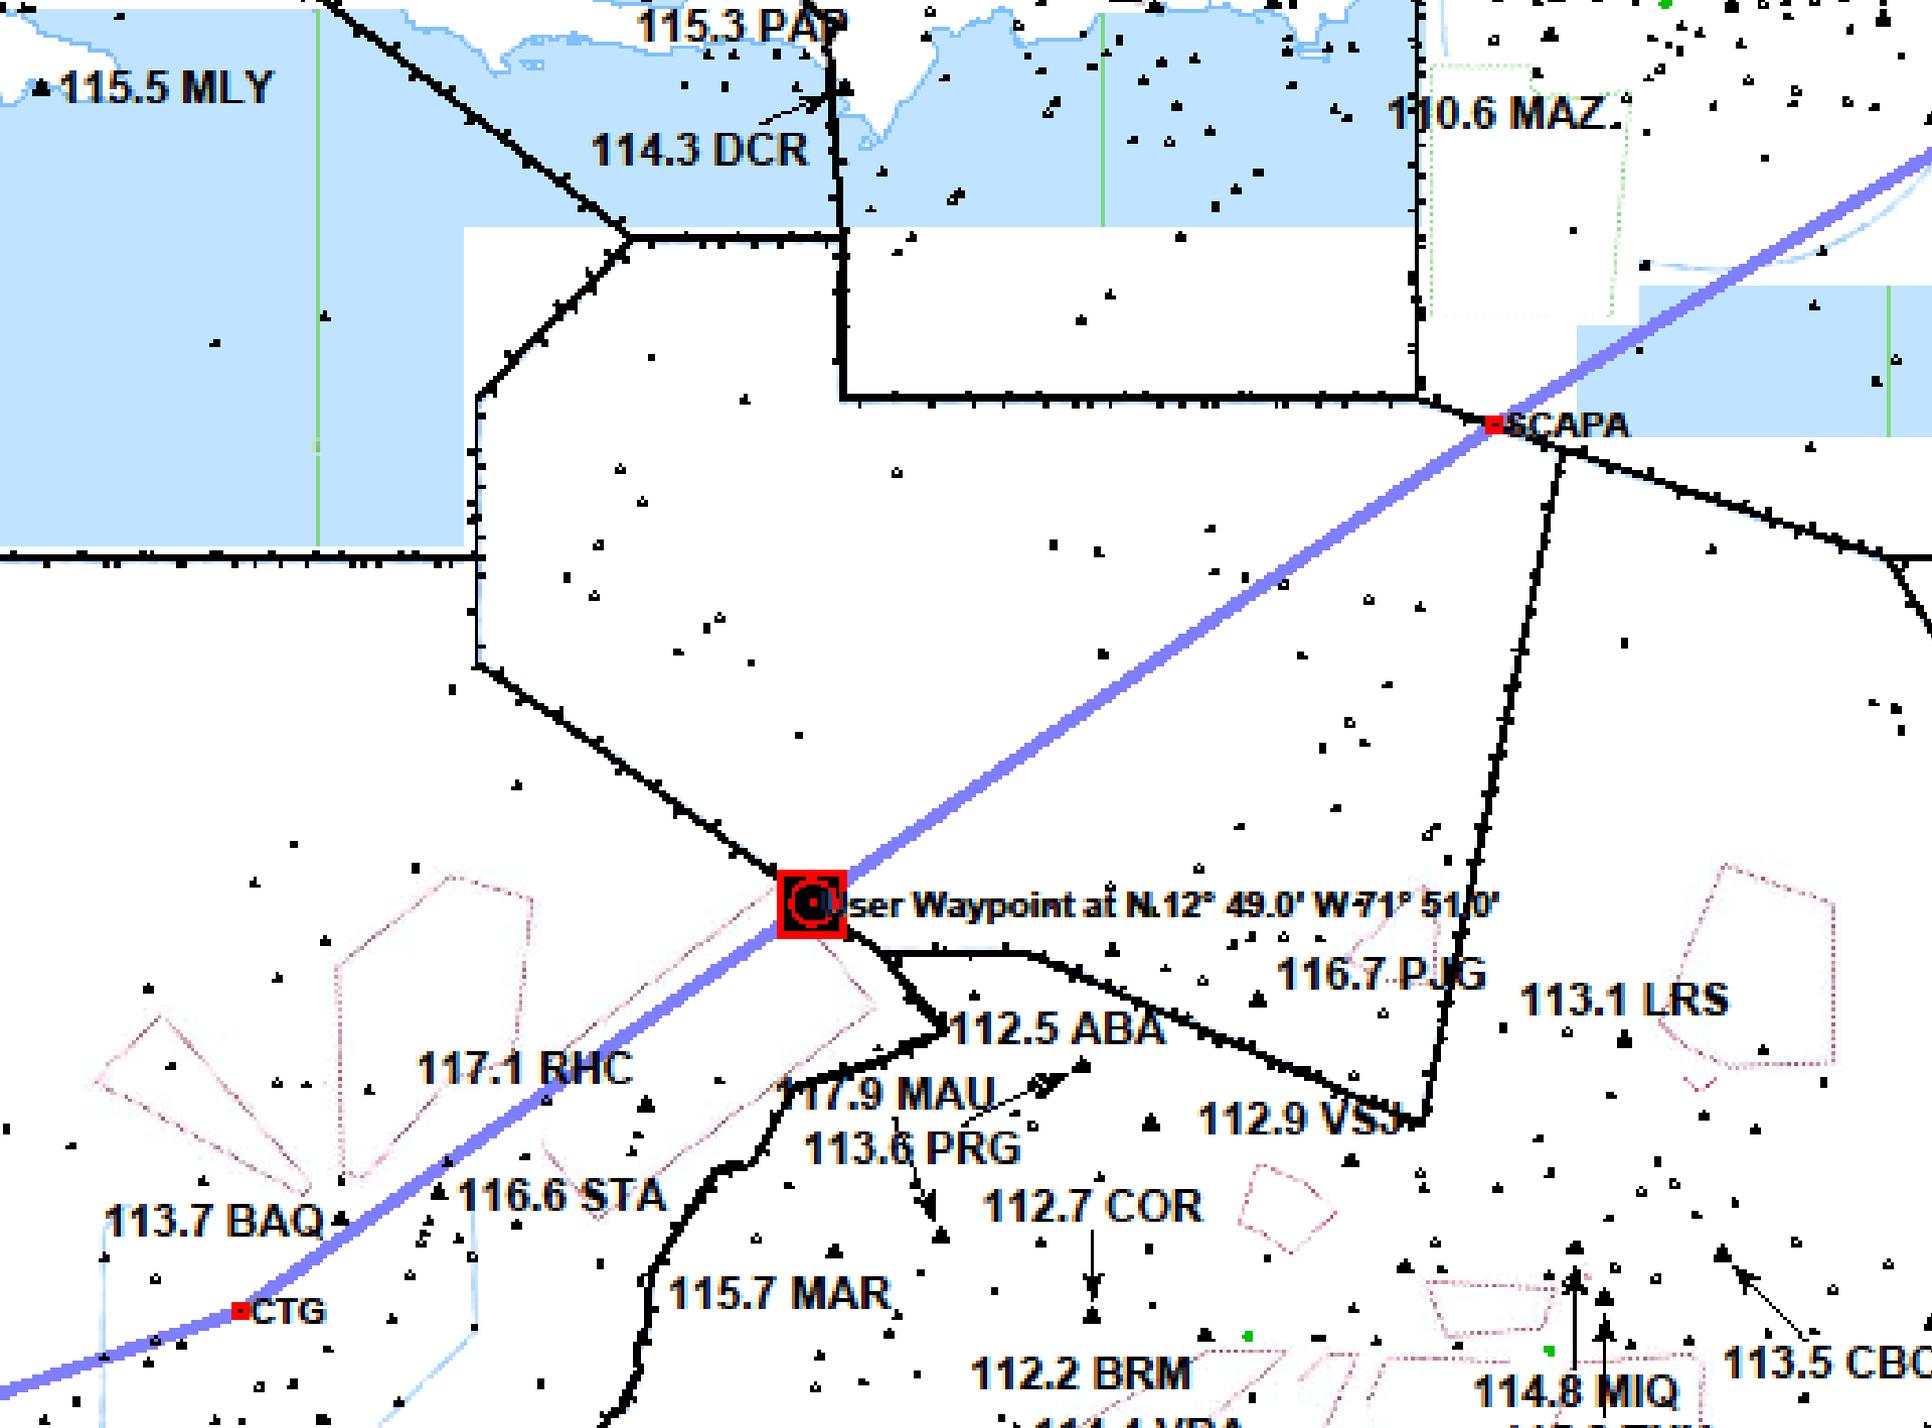

We are now 5 years ahead and the formalization has not taken place yet.

DC-ANSP urges Panama and Colombia to formalize this route between them as well, as DC-ANSP has done with San Juan.

All parties involved were in agreement during the last meeting in Fort Lauderdale, we only need to formalize the parts in Panama And Colombia FIR's.

TBG - OBIKE

NEW ROUTE NAME			
From TBG to OBIKE			
WAYPOINT	LATITUDE N	LONGITUDE W
