7th PAN AMERICAN AVIATION SAFETY SUMMIT

Santiago Saltos
Director Industry Affairs
ssaltos@alta.aero

Objective

Focus on the importance and value of working with data to develop mitigation strategies under a collaborative action plan among government and industry

Presentations: For the first time the region will present data that illustrates the risk trends and what different organizations are contributing to reduce these risks. Also Safety Experts will present safety trends to look out for.

Panels: Like in before editions, we'll have panels of Safety Experts that will contribute their experience and knowledge about Safety Programs in the region.
