#### 1. Introduction

1.1 Taking into consideration all the previous meetings of the ANI/WG, as well as the Fifth North American, Central American and Caribbean Working Group Meeting (NACC/WG/5), and based on the ToRs and the activities of the AIM Task Force work programme, the available information on the implementation continuity of the transition to AIM by States and International Organizations is provided.

1.2 During the ANI/WG/4 Meeting changes and suggestions on the revision of the ToRs and work programme were made. A revised action plan is to be created in order to guide the activities required for the transition to AIM.

1.3 The AIM Task Force briefly discussed the proposed curricula regarding AIM training and it was decided that further review by members is required before approval and submission to ICAO. Draft ICAO Document 9991 is also outstanding for review by AIM Task force members. The addition to Annex 1 regarding licensing of AIM personnel is still under review by members of the Task Force.

1.4 Amendment 40 to Annex 15 was discussed by the Task Force members present. Due to the size and complexity of the amendment a decision was taken to extend the date for submission of comments by members to 7th September 2018. A Task Force member observed that the amendment stated that all data quality requirements e.g. accuracy, resolution, integrity, etc. are referred to in a Note indicating that the specifications are contained in the PANS-AIM document. However, Annex 15 states that a Note does not constitute part of the Standard. Additionally, documents with PANS status do not contain standards but only recommendations and the above critical specifications are therefore not considered as standards.

1.5 The draft status reporting forms submitted to the Task Force members previously was reviewed. It was suggested by a member that there is difficulty for States to estimate their level of progress based on the scale provided and that performance metrics should be developed to assist States in providing updates that are more accurate.

## **2. Progress and Compliance with the AIM/TF Activities**

2.1 Further to the AIM/TF/1 Meeting two teleconferences were conducted with coordination by ICAO. Documents relating to some of the above items were provided by the AIM Task Force Rapporteur for feedback and comments.

2.2 Comments were provided by some States to the AIM Task Force Rapporteur regarding the proposed documents previously sent to members.

2.3 The SLA template to be used for drafting agreements between AIM and data originators and the AIM Manual of Standards (MoS) were uploaded on the ICAO website.

## **3. Terms of Reference (ToRs) and Work Programme**

3.1 The validity of the ToRs of the AIM Task Force is shown in **Appendix A**. The new revised version of the membership list is also shown in Appendix A.

3.2 The new revised version of the AIM Task Force work programme is shown in **Appendix B**, for discussion at the meeting.

**4. Action Plan**

4.1 A revised Action Plan taking into consideration the progress made thus far and the initial target dates is to be developed and agreed by the members of the AIM Task Force.

4.2 The AIM Task Force considered the following:

- a) review and approve the updated version of the AIM Task Force work programme, membership list and Terms of Reference (<https://www.icao.int/NACC/Pages/regional-group-AIM.aspx>);
  - b) the need to hold a teleconference as soon as possible following the ANI/WG/4 Meeting in order to address the issues outstanding in section 1.
  - c) recommendation for attendance at the upcoming ‘Integrated Aeronautical Information Management (AIM), Quality Management System (QMS), Flight Planning Issues and AIM Transition’ Meeting.
  - d) States are urged to have a more participation in the AIM Task Force; and
  - e) propose any other action or task, as deemed necessary.
