NOTA DE ESTUDIO

ANI/WG/4 — NE/10

22/05/18

**Cuarta Reunión del Grupo de Trabajo sobre implementación de Navegación Aérea para las Regiones
NAM/CAR (ANI/WG/4)**

Miami, Estados Unidos, 21 – 24 de agosto de 2018

Cuestión 4 del

Orden del Día:

Seguimiento, evaluación de desempeño y monitoreo del Plan de Implementación de Navegación Aérea Basado en la Performance para la Región CAR

4.1 Informes de avance de los Grupos de Tarea del ANI/WG

INFORME DE AVANCE DEL GRUPO DE TAREA AIDC

(Presentada por el Relator del Grupo de Tarea AIDC del ANI/WG)

RESUMEN EJECUTIVO

Esta Nota de Estudio presenta el avance del Grupo de Tarea AIDC y el grupo Ad hoc de monitoreo de Plan de Vuelo (FPL), desde la Quinta Reunión del Grupo de Trabajo de Norteamérica, Centroamérica y Caribe (NACC/WG/5); así como los Términos de Referencia (ToR) y programa de trabajo actualizados para cada grupo.

Acción:	Las acciones sugeridas se presentan en la Sección 3.
Objetivos Estratégicos:	<ul style="list-style-type: none">• Seguridad Operacional• Capacidad y eficiencia de la navegación aérea
Referencias:	<ul style="list-style-type: none">• Tercera Reunión del Grupo de Trabajo sobre implementación de Navegación Aérea para las Regiones NAM/CAR (ANI/WG/3), Ciudad de México, México, 4 al 6 de abril 2016• Quinta Reunión del Grupo de Trabajo de Norteamérica, Centroamérica y Caribe (NACC/WG/5), Puerto España, Trinidad y Tabago, 22-26 de mayo de 2017

1. Introducción

1.1 El Grupo de Tarea AIDC fue creado en la Primera Reunión del ANI/WG para agilizar la implementación del AIDC. Como resultado de la importancia que los errores de planes de vuelo tienen para la implementación exitosa del AIDC, posteriormente se formó un grupo Ad hoc de monitoreo de FPL para dar seguimiento a este problema en específico. Esta nota de estudio presenta los resultados que estos dos grupos han producido durante el año pasado, así como también las metas y el programa de trabajo para los siguientes doce meses.

2. Informe del Avance del AIDC

Términos de Referencia y Programa de Trabajo

2.1 Los términos de referencia de ambos grupos incluyen la membresía, la cual ha sido modificada durante el año. Se presentan en los **Apéndices A y B**, respectivamente.

Plan Regional

2.2 El plan regional actualizado se presenta en el **Apéndice C**.

Actividades del Grupo de Tarea

2.3 Actividades en general: El Grupo de Tarea AIDC tuvo dos teleconferencias, al igual que el Grupo de monitoreo del FPL.

2.4 Se realizaron dos reuniones cara a cara contando con la participación de ambos grupos:

- a) una reunión conjunta con el Grupo de Tarea del AIM en Tegucigalpa, Honduras, del 30 de octubre al 3 de noviembre de 2017;
- b) una con los miembros análogos de la Región SAM en Lima, Perú, del 16 al 20 de abril de 2018.

2.5 En ambas reuniones, se contó con la participación de varios explotadores aéreos, aparte de IATA, y en la última reunión con los proveedores de sistemas, en todos los casos siendo muy productivas y fructíferas para determinar acciones tales como la creación de procedimientos homogéneos discutidos posteriormente en esta nota, así como las recomendaciones de los proveedores con respecto al AIDC, incluidas en el informe final de la reunión NAM/CAR/SAM mencionada en el párrafo 2.4 b)

2.6 Nueva Implementación AIDC: durante el año no hubo implementaciones AIDC en la región. Varios Estados se encuentran en proceso de implementar nuevos sistemas ATC que permitirán la implementación del AIDC.

2.7 Decisión de Métricas AIDC: El Grupo de Tarea consideró diferentes métricas de performance para la implementación AIDC, tomando en cuenta los beneficios esperados especificados en el GANP y el RPBANIP. Estas métricas se presentan en el **Apéndice D**.

2.8 Recolección de Datos: Se llevó a cabo la recolección de datos del 5 al 12 de marzo. Esta recolección de datos incluyó todo tipo de errores, no solo planes de vuelo duplicados. Esta recolección de datos fue realizada como referencia de la situación actual en preparación para la Reunión de SAM. Un resumen de los resultados se presenta en el **Apéndice E**.

2.9 Procedimiento Homogéneo: Durante la reunión cara a cara en Honduras, se propuso un procedimiento homogéneo para el procesamiento de planes de vuelo como medida de mitigación para los errores de planes de vuelo. El procedimiento fue desarrollado y discutido, y se presenta en el **Apéndice F**. El procedimiento también fue presentado durante la Reunión con miembros de la Región SAM, pero no se logró un consenso con respecto a un procedimiento unificado para ambas regiones.

2.10 Coordinación con SAM: Durante la reunión con la Región SAM, se propuso que un grupo como el Grupo de Monitoreo FPL sea creado para desempeñar tareas similares para la Región. La Reunión propuso un relator para este propósito, y se programó una teleconferencia para la segunda semana de junio de 2018 para acordar en cómo se coordinaran las actividades entre los dos grupos mediante los respectivos relatores.

FPL2012 Lista de Verificación Pos implementación (Lista de Convertidores)

2.11 La lista de verificación de convertidores actualizada se presenta en el **Apéndice G**.

Programas de Trabajo del Grupo de Tarea AIDC y el Grupo de monitoreo FPL

2.12 En el **Apéndice H** se presenta el programa de trabajo del Grupo de Tarea del AIDC y el Grupo de monitoreo del FPL. El programa de trabajo refleja las tareas asignadas a los grupos de las distintas reuniones regionales y de grupo, así como también las teleconferencias.

3. Acciones sugeridas

Se invita a la Reunión a:

- a) revisar y aprobar los Términos de Referencia y Programas de Trabajo actualizados respectivos del Grupo de Tarea AIDC y del Grupo de Monitoreo FPL;
 - b) evaluar el avance del Grupo de Tarea AIDC; y
 - c) proponer cualquier otra acción o tarea que se considere necesaria.
-

APPENDIX A

**TASK FORCE ON AIR TRAFFIC SERVICES INTER-FACILITY DATA COMMUNICATIONATS INTERFACILITY
DATA COMMUNICATION (AIDC) TASK FORCE MEMBERSHIP
(AIDC) IMPLEMENTATION**

Background

During the first ANI/WG meeting, an AIDC Implementation Task Force was formed in order to streamline related air navigation implementation activities. This Task Force shall complete AIDC implementation in accordance with the Regional AIDC Implementation Plan as well as update and report progress to the ANI/WG based on the action plan for these tasks.

Responsibilities

The Task Force is responsible for:

- a) Work Programme Management
- b) Analyzing and coordinating mitigation/solution actions for duplicate/missing FPLs
- c) Coordinating, implementation, and trials for AIDC implementation (Regional Plan).

Working Methods

The Task Force will:

Present its work programme containing activities in terms of objectives, responsibilities, deliverables and timelines.

Avoid duplicating work within the ANI/WG and maintain close coordination among the existing entities to optimize use of available resources and experience.

Designate, as necessary, Ad hoc Groups to work on specific topics and activities and organize clearly defined tasks and activities

Coordinate tasks to maximize efficiency and reduce costs via electronic means including emails, telephone and teleconference calls, and convene meetings as necessary.

Report on and coordinate the progress of assigned tasks to the ANI/WG.

APPENDIX B**FPL MONITORING GROUP
TERMS OF REFERENCE****1. *Background***

The AIDC Implementation Task Force was formed during the first ANI/WG meeting to streamline related air navigation implementation activities. Among these is analyzing and coordinating mitigation/solution actions for duplicate/missing FPLs. During the 4th teleconference of the Task Force, a document was produced analyzing this issue, and an FPL monitoring group was proposed to report on problems and follow up on their solution in the matter of duplicate and erroneous FPLs. This monitoring group was formed during the 4th NACC/WG meeting in March 2014 as an ad-hoc group of the AIDC Implementation Task Force.

2. *Responsibilities*

The FPL monitoring group is responsible for:

- a) Provide guidance to States to regularly collect and report FPL duplication/error issues.
- b) Propose common solutions to flight plan issues in the region based on analysis of data and lessons learned.
- c) Overseeing the execution of the FPL mitigation/solution action plan.
- d) Providing statistical data of the errors detected in the filing of flight plans in their State.

3. *Working Methods*

The FPL monitoring group will:

1. Carry out the activities assigned by the AIDC Task Force in accordance to the FPL related tasks.
2. Conduct periodic teleconferences to review progress of the action plan and propose modifications as needed.
3. Present periodic reports to the AIDC Task Force on detected errors and corresponding actions undertaken.
4. Report to the AIDC Task Force Rapporteur.

4. Membership

- a. There will be a member representing each FIR in the region, who may be supported by other representatives from each State in the FIR.

APPENDIX H**AIDC TASK FORCE AND FPL MONITORING GROUP WORK PROGRAMME**

Task Description			Start Date	End Date	% complete
1 Eliminate converters					0
	1.1 Update ATC systems		01/01/17	02/01/17	0
	1.2 Update messaging systems		01/01/17	02/01/17	0
2 FPL errors					0
	2.1 Implement homogeneous procedure				0
		2.1.1 Develop procedure	31/10/17	02/11/17	100
		2.1.2 send a survey to airlines to determine flight plan processing systems capabilities	03/11/17	03/11/17	0
		2.1.3 send a survey to ANSPs to determine flight plan processing systems capabilities	03/11/17	11/12/17	0
		2.1.4 discuss and agree on the use of ATS messages, in the light of the capabilities of the systems	11/12/17	30/03/18	0
		2.1.5 carry out trials as proof of concept of the regional procedure, by means of bilateral agreements	30/03/18	29/06/18	0
		2.1.6 review and publish the addresses to which airspace users should send flight plans, taking into account the capabilities of their systems and in accordance with the regional procedure	29/06/18	28/09/18	0
		2.1.7 propose the resulting procedure for flight plan processing, based on the discussed procedure and considering the results of items c) and d) of this decision, to be the regional procedure, and request its publication in Doc 7030 - Regional Supplementary Procedures	29/06/18	28/09/18	0
	2.2 Improve feedback between airlines and ATS units				0

		2.2.1 update the contact list for the 3, in which to include Aeronautical Fixed Telecommunication Network (AFTN)/Aeronautical Message Handling System (AMHS) addresses, e-mail addresses and/or phone numbers for the entity responsible for handling flight plan errors, for uploading to the ANI/WG AIDC Task Force web page (https://www.icao.int/NACC/Pages/regional-group-AIDC.aspx)	03/11/17	30/11/17	0
		2.2.2 create an ANSPs contact list for, in which to include AFTN/AMHS addresses, email addresses and/or phone numbers for the entity responsible for handling flight plan errors, for uploading to the AIDC Task Force web page, and also update the Aeronautical Information Publication (AIPs) of each State accordingly	03/11/17	01/12/17	0
		2.2.3 review and recommend the use of the reference of the Rejection Message (REJ/ACK) guidance from Cuba, United States and COCESNA, and for future updates and implementation of flight plan processing systems	03/11/17	08/12/17	0
		2.2.4 create a guidance document for determining which circumstances require a rejection of flight plans and which does not	03/11/17	15/12/17	0
		2.2.5 consider and carry out user teleconferences with the participation of air navigation personnel as deemed necessary	03/11/17	03/11/17	0
		2.2.6 promote and carry out regional user teleconferences to follow up on pertinent issues	03/11/17	03/11/17	0
	2.3 Maintenance of aircraft type database				0
		2.3.1 update aircraft type data	03/11/17	03/11/17	0
		2.3.2 develop a procedure to allow timely update of this data	03/11/17	03/11/17	0
3 Implement ATS automated message exchanges as required (FPL, CPL, CNL, DLA, etc.)					0
	3.1 AIDC implementation class 1-2		01/01/17	02/01/17	0

— H3 —

4 Implement automated radar handoffs where possible						0
	4.1 AIDC implementation class 3			01/01/17	02/01/17	0
5 Improve training						0
	5.1 Identify and inform of training needs for the application and implementation of ATS system automation			01/01/17	02/01/17	0
	5.2 Enhance the training infrastructure of the region and the training programs related to surveillance and automated systems			01/01/17	02/01/17	0

— END —
