MEVA TMG34 – Miami – 2019

Update Information on administrative issues

Agenda Item 5

TMG/34 – Update Information on administrative issues

General:

- The MEVA III contract will end by March 31st 2020

Informations

- As to the tender requirements some member states contracts needs active prolongation process
- General Framework agreement wording:
 - The Term may be extended for additional twenty four (24) month periods after the Termination Date (“Renewal Terms”), provided that the parties agree in writing to any new or modified terms and conditions for the Services for such Renewal Terms within **ninety (90) days** prior to the termination of the preceding term.
- Exception
 - ICAO contracts are limited to 60 months without prolongation option
 - establish new contracts will need up to 6 months (lessons learnt)

Agenda Item 5

TMG/34 – Update Information on administrative issues

Why does Frequentis need contract prolongations confirmation in time?

- The used space segment on Intelsat 14 is highly occupied and already requested by others
- Frequentis sub-contracts with Teleport provider are bound to MEVA contract with fixed ending
- Same applies to T1 lines between TP Miami and FAA Miami
