**Agenda Item 3.3, 5.3, 5.4, 6.1 - P/02**

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

## AGENDA

- ✈ NAM/CAR/SAM Interregional activities follow-up  
(Agenda Item 3.3).
- ✈ NAM/CAR Regional Implementation Status  
(Agenda Item 5.3 y 5.4).
  - ✈ ATM Standardization and Situational Awareness Programme (B0-RSEQ, BO-SNET, BO-ASUR y B0-SURF) follow-up
  - ✈ Ground-Ground and Ground-Air Communications Programme (B0-FICE, B0-TBO) follow-up
- ✈ Follow-up to the GREPECAS Conclusions  
(Agenda Item 3.3).
- ✈ Meeting recommendations.

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

## NAM/CAR Regional Implementation Status

### BACKGROUND

WE FOUND THAT AIDC IS AFFECTED BY

DUPLICATE FLIGHT PLANS

DATA BASE

MISSING FLIGHT PLANS

ERRORS IN FIELD 15

INCOMPLETE PLANS

RESISTANCE TO CHANGE

ERRORS IN FIELD 18

CONNECTION ERRORS

ERRORS IN FIELD 10A

### AIDC Implementation;

✈ Relevant aspects that have affected negatively this implementation:

- ✈ Lack of accurate definition of technical and operative requirements or its operation.
- ✈ Errors in flight plans messages.
- ✈ Training of AIM personnel.
- ✈ Particular issues of each State.

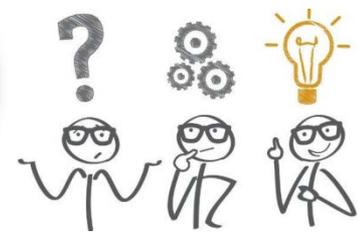

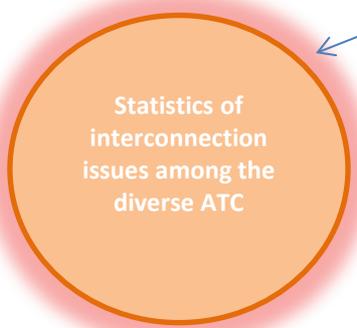

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

## NAM/CAR Regional Implementation Status

✈️ AIDC implementation

## Adopted measures to mitigate flight plan errors percentage

- ✈ Training to AIM personnel of the States;
  - ✈ Cuba, Mexico, Central America and COCESNA, (8 States and 1 Organization).
- ✈ Approach with IATA and Airlines:
  - ✈ Avianca, American Airlines, DELTA, Jetblue, Aeromexico, Volaris, United, etc.
- ✈ Training on ATC systems database maintenance.
  - ✈ INDRA, THALES, LEONARDO.
- ✈ Training for AMHS systems database maintenance in the region.
  - ✈ Provided by EUROCONTROL and the FAA.

# Flight Plan Rejection System

CUBA

□□
ITEM 10 - PBN TABLE

REJECTED *INCONSISTENT ITEM 10 AND 18 PBN/ IF PBN HAS B1
THEN COMNAV EQUIP MUST HAVE R AND G AND D AND I AND O
OR S
*INCONSISTENT ITEM 10 AND 18 PBN/ IF PBN HAS C1 OR D1
OR O1 THEN COMNAV EQUIP MUST HAVE R AND G AND D AND I
```

1. Standardization of the flight plan rejection messages.
2. Training to receive, besides the flight plan rejection, the reason of this rejection.
3. Same Solutions implementation.

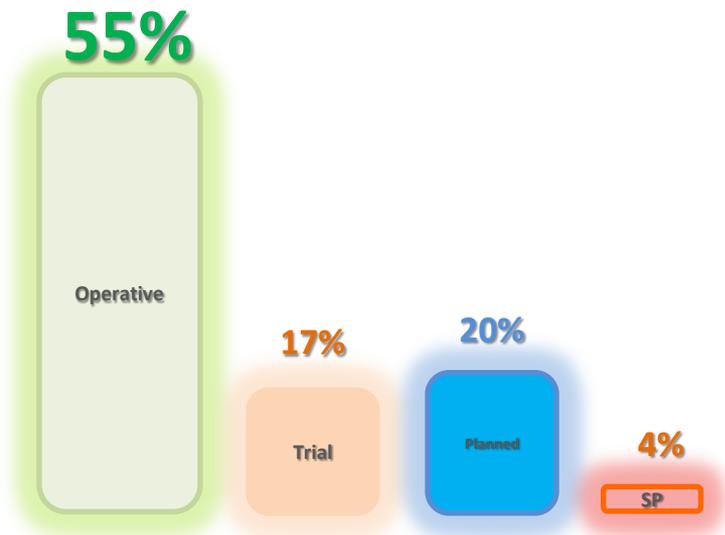

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

## NAM/CAR Automation

The AIDC Task Force informed that up to date 39 interphases are operational, 12 are in trial and 14 are already planned. Furthermore, three are in implementation status, two are being planned and three are pending,

**GREPECAS**

CAR/SAM Regional Planning and Implementation Group

# AMHS Implementation

✈ Completed

✈ Current activities in the **AMHS** Platform.

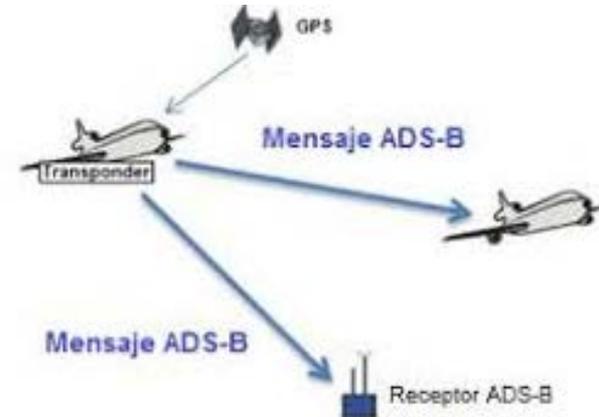

- ✈ Backup connections implementation.
- ✈ XML and IWXXM trial kick off.
- ✈ AMHS Addressing Monitoring  
(Validation of Correct addressing)

# ADS-B Implementation

✈ Supported by the FAA, NAV Canada and ATC Systems providers, the region has developed seminars on ADS-B implementation, including the following:

- ✈ Technical and operative implementation
- ✈ Avionics certification
- ✈ Integration and certification of ATC data
- ✈ ICAO Standards compliance
- ✈ Aeronautics publications
- ✈ ADS-B Legislation.

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

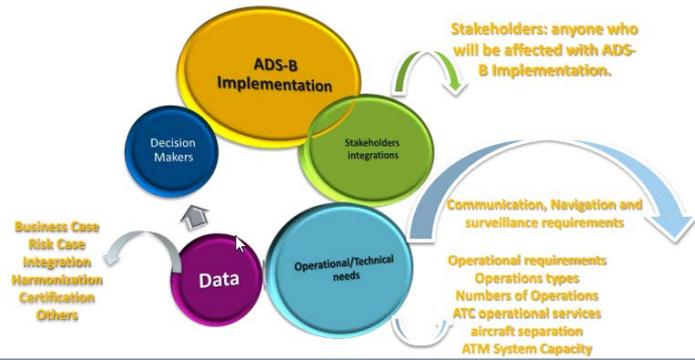

## ADS-B Implementation

- ✈ ADS-B implementation factors.
- ✈ Update of the publication of legislation.
- ✈ ADS-B data assessment.
- ✈ ADS-B integration with other surveillance data.
- ✈ Security alarms.
- ✈ Others related to the mandatory implementation on 1 January 2020.
- ✈ Support of the regional development using surveillance data for regional efficiency .

Consideration for ADS-B implementation

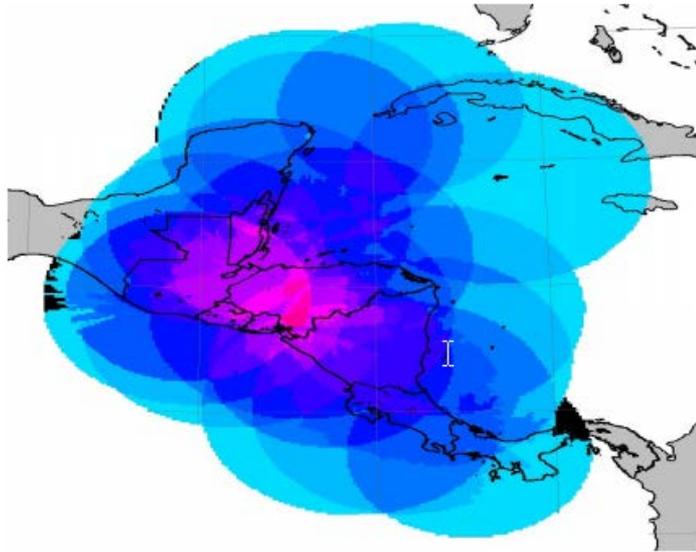

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

## Surveillance data (radar data sharing)

- ✈ Mexico with Central America (Belize, Guatemala, COCESNA)
- ✈ All Central American States.
- ✈ Cuba, Jamaica, COCESNA
- ✈ Curacao, Dominican Republic.
- ✈ Central America with Panama.
- ✈ Central America with Ecuador.
- ✈ Trinidad and Tobago with French Guyana and Barbados

**60%**

The region developed a base-document to carry out radar data sharing agreements.

OPERATIONAL ENVIRONMENT

## Surveillance data

- ✈ New CAR surveillance infrastructure implementation.
- ✈ ADS-B Satellite data implementation in FIR Curacao.
- ✈ Surveillance ConOps update by the ANI/WG/SURV Task Force.
- ✈ Integrate them to the regional objectives.

# ATFM

- ✈ A shift of the ATFM Regional approach from a centralized implementation to a multi-nodal approach. Consequently, the ATFM operational concept was updated in the CAR/SAM regions (ATFM CONOPS) providing a reference to this new implementation approach.
- ✈ In September 2019 a workshop on Airport collaborative decision making (A-CDM), related with the ATFM, will be held in the ICAO NACC Regional Office. After that event a an ATFM implementation regional meeting will be carried out, where are expected some considerations to allow better identifying the principal obstacles for the region and to adequate the working programme of the ATFM Task Force of the ANI/WG.

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

# AIM

- ✈ 95% of the CAR States have already migrated manual to digital and electronic processes (DB) e-AIP.
- ✈ 80% implemented QMS in the CAR region with the support of Cuba, Curacao, Dominican Republic, Mexico, Trinidad and Tobago, and COCESNA, covering the rest of the States.
- ✈ 100% CAR States implemented the AIRAC System.

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

## MEVA (Enhancements to the ATS Voice Link)

- ✈ All the AMHS channels in the CAR region
- ✈ Covers all the radar exchange channels among the CAR States
- ✈ Covers ADS-B Satellite data for Curacao.
- ✈ Covers Colombia, Panama.
- ✈ REDDIG connection for data sharing with SAM States.
- ✈ Kick off of the XML, IWXXM trials in the AMHS CAR platform (Results on DEC 2019)

# GREPECAS

## CAR/SAM Regional Planning and Implementation Group

# MEVA

## MEVA Network Improvements to the ATS Voice Link

Terms of Reference  
MEVA III Presentation

MEVA Network Coordinator: Ms. Mayda Ávila  
MEVA TMG Coordinator: Ms. Dulce Roses

Area	States Members	Name/responsible
SWIM	Jamaica Trinidad and Tobago United States	Albert O'neill
Interoperability	Aruba Bahamas ICAO	Earl A. Rahming
Voice	Cuba Dominican Republic	Elvis Collado
Surveillance	Curaçao Haiti COCESNA	Roger Perez
Others	Cayman Islands Mexico Panama	Wendell Prout

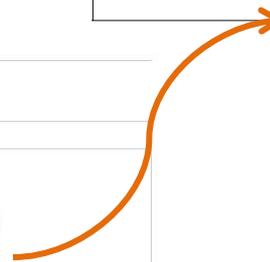

The radio electric spectrum is a limited natural resource with constant demand. CAR States decided to apply mechanism to warranty the protection of the frequencies that are required for current and future air navigation.

## ADS-C/CPDLC Implementation

- ✈️ Central America carried out the ADS-C/CPDLC implementation over a South Pacific area of the CA FIR. Operative.
- ✈️ PIARCO FIR: carried out the ADS-C/CPDLC implementation over an oceanic area in the Atlantic; currently in trials.

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

## Inter-Regional Activities

(NACC Initiative)

- ✈️ AIDC Workshop (Abril 2018); working table on regional implementation issues (ATC Systems, flight plan errors and lessons learnt).
- ✈️ Two ADS-B Workshops (Nov 2017 and Nov 2018): Implementation, Failures, Data monitoring, ATC Systems integration, Legislation, etc.
- ✈️ A workshop for NAM/CAR/SAM State to promote the adoption of Amendment 77 and 78 to Annex 3 on the ICAO Meteorological data exchange model (IWXXM) and Space-Climate (July 2018).
- ✈️ NAM/CAR/SAM Workshop on Cybersecurity (December 2019)

## Follow up of the CRPP/3 and CRPP/4 Meetings results

<p>GREPECAS/18 D 18/2 A</p>	<p>Establishment of a Working Group to obtain better AMHS operational use</p>	<p>That, in order to exploit AMHS potentialities and take advantage of its operational use:</p> <ul style="list-style-type: none"><li>a) a working group is formed by Brazil, Dominican Republic, United States and D Programme coordinators in the CAR and SAM Regions for ground- ground and air-ground communications infrastructure;</li><li>b) the working group will work through virtual meetings and will prepare a strategy to ensure AMHS operational use, providing it to the Region disposal as soon as practicable.</li></ul>
-------------------------------------	---	--

**✈ Completed**

For the CAR region.

Group established for the CAR region, led by Cuba. SAM region to be integrated.

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

## Follow up of the CRPP/3 and CRPP/4 Meetings results

GREPECAS/18 C-18/4 A,B y E	Development of air navigation plans aligned with the GANP and the regional performance-based air navigation plans	That, the CAR/SAM Regions States that have not yet amended or developed their National Plans aligned with the Global Air Navigation Plan (GANP) (4 <sup>th</sup> edition) and the RPBANIP and SAM PBIP, complete them shortly in order to harmonize the implementation and facilitate the interoperability of systems and inter and intra-regional air navigation systems and services.
----------------------------------	---	---

### ✈ In process for the CAR region

Currently, NAM/CAR regions have developed 16 Air navigation plans related to 22 NAM/CAR States, which represents a compliance of **72%** for this activity.

The development of air navigation plans of the pending States has been planned for the second semester of 2019.

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

## GREPECAS Conclusions Developments

✈ Completed  
For the CAR Region.

CONCLUSION GREPECAS 18/17		MEASURES TO REDUCE FLIGHT PLAN ERRORS
<p><b>That:</b></p> <p>Considering the discussions regarding the problems to solve errors in flight plans and their negative impact in automated coordinations, and taking note that the correct presentation and processing of flight plans is essential for ADS-B, AIDC, ATFM implementation, among other concepts and functionalities, and considering that the errors in flight plans among the different FIRs generate LHDs that should be treated as a short term regional problem, the Meeting urged:</p> <p>a) NAM/CAR/SAM States and IATA to extensively discuss the problems in the AIDC Implementation Meeting of all the regions, to be carried out in Lima, Peru, from 16 to 29 April 2018;</p> <p>b) States to instruct their representatives assisting to the Lima meeting, to integrate local and regional solutions that could permit to solve these problems in a short term in the region; and</p> <p>c) States and IATA to commit themselves to implement mechanisms to solve errors in flight plans that may result of the meeting in Lima, before the end of December 2018.</p>	<p><b>Expected impact:</b></p> <p><input type="checkbox"/> Político / Global  <input checked="" type="checkbox"/> Inter-regional  <input type="checkbox"/> Económico  <input type="checkbox"/> Ambiental  <input checked="" type="checkbox"/> Técnico/Operacional</p>	
<p><b>Why:</b> Minimize the negative impact of errors in flight plans in the automation and general management of operations in the region.</p>		
<p><b>When:</b> By December 2018.</p>		<p><b>Status:</b> Adopted by GREPECAS/18</p>
<p><b>Who:</b> <input type="checkbox"/> Coordinators <input checked="" type="checkbox"/> States <input type="checkbox"/> ICAO Secretariat <input type="checkbox"/> ICAO HQ <input type="checkbox"/> Otros: XX</p>		

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

## Pending 2019 Activities

- ✈ New CAR mechanism for flight plan assessment/solution.
- ✈ Workshop on flight plan errors to cover pending States training.
- ✈ ICAO NACC Regional Office initiative for a Joint Project (OACI-ALTA-IATA) to reduce flight plan errors.
- ✈ NAM/CAR Follow up Workshop for the ADS-B implementation (Ottawa, Canada, August 2019).
- ✈ NAM/CAR Air navigation workshop in November 2019.
- ✈ Workshop for air navigation plans development of 6 CAR States.
- ✈ Implementation missions: (1) AIDC Jamaica, (2) GBAS Cuba and El Salvador.

# GREPECAS

CAR/SAM Regional Planning and Implementation Group

## Recommendations

- ✈ Support the development of the Regional ANI/WG Task Forces.
- ✈ Support the development of the activities aimed at eradicating flight plans errors.
- ✈ SAM States integration to flight plan errors management.
- ✈ Participation of the States in the activities aimed on boosting the regional development. The State must assure that the participants comply with the basic participation requirements for a positive impact in the State.
- ✈ <https://www.icao.int/GREPECAS/Pages/default.aspx>
