

The
voice of the
world's airports

ICAO NACC Briefing

28 October 2020

ACI Airport Health Accreditation

Supported by

ICAO

Objectives of Airport Health Accreditation

Promote Best Practices

- Allows airports to validate their own measures
- Promotes recognition of professional excellence

Restore Confidence

- Reassures the travelling public
- Demonstrates to passengers, staff and governments that airports are prioritizing health and safety

Align Measures

- Ensures harmonization between ICAO global guidance and industry implementation
- Aligns efforts across the industry

Process for accreditation

Accreditation across ACI World membership

All Regions

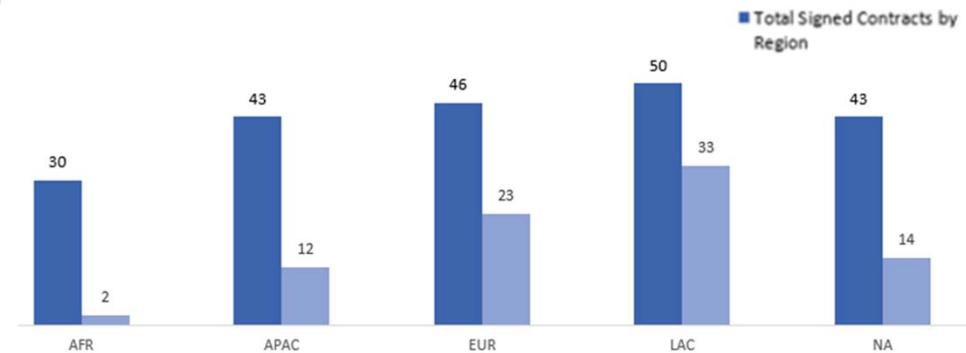

Airport Health Accreditation

To date

- 388 airports have applied
- 212 airports have signed the contract
- 20 airports are under review
- 84 have been accredited

Total Signed Contracts and Airport Accredited by Region

Thank you
