# Introduction

Morcom was founded in **1984** to provide advanced solutions in communications and weather information systems for critical applications, and has global experience in developing projects in many countries with the highest quality, thus being highly recognized as an excellent supplier in the aeronautical industry.

MORCOM is a strong, stable, firm with highly capable management and professional staff.

The company goes beyond supplying products.

We provide services to support our products:

- Systems design & development
- Infrastructure planning
- Systems integration
- Installation & deployment
- Commissioning
- Training
- After Sales Support

MORCOM INTERNATIONAL, INC.  
3656 Centerview Dr. Unit # 1  
Chantilly, VA 20151 USA

# About MORCOM

## MORCOM Staff

Our company is organized into functional areas:

- Engineering & Technical Services
- Administrative
- Sales & Business Development

## MORCOM VALUES

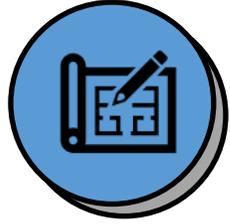

- Our staff **prioritize customer service** as a means to ensure repeat business.
- We believe that a good customer experience is vital to any business.
- MORCOM brings fresh ideas and unique solutions about how the customer's organization can achieve the desired goals of the project in the most efficient and reliable fashion.
- MORCOM believes that its technicians and engineers must keep abreast of new product developments and trends in global technologies, emerging telecommunications technology, and customer demand

# MORCOM QUALITY MANAGEMENT AND QUALITY ASSURANCE

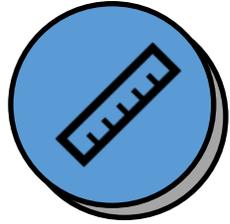

## ISO CERTIFICATION

Morcom International, Inc. is certified to the latest ISO 9001:2015 standard through ABS Quality Evaluations, Inc.

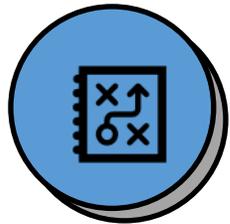

## QUALITY ASSURANCE

Morcom's Quality Assurance Procedures provide all control processes that shall be adhered to in all phases of product development. These processes comply with ISO 9001:2015 certification.

## QUALITY CONTROL

Inspection & Tests: All Incoming & Outgoing Products, Parts, and Assemblies are subjected to controlled inspection and test processes.

Configuration Management: All drawings and documentation are controlled and maintained as per ISO 9001:2015 compliance requirements.

## PRODUCT WARRANTY

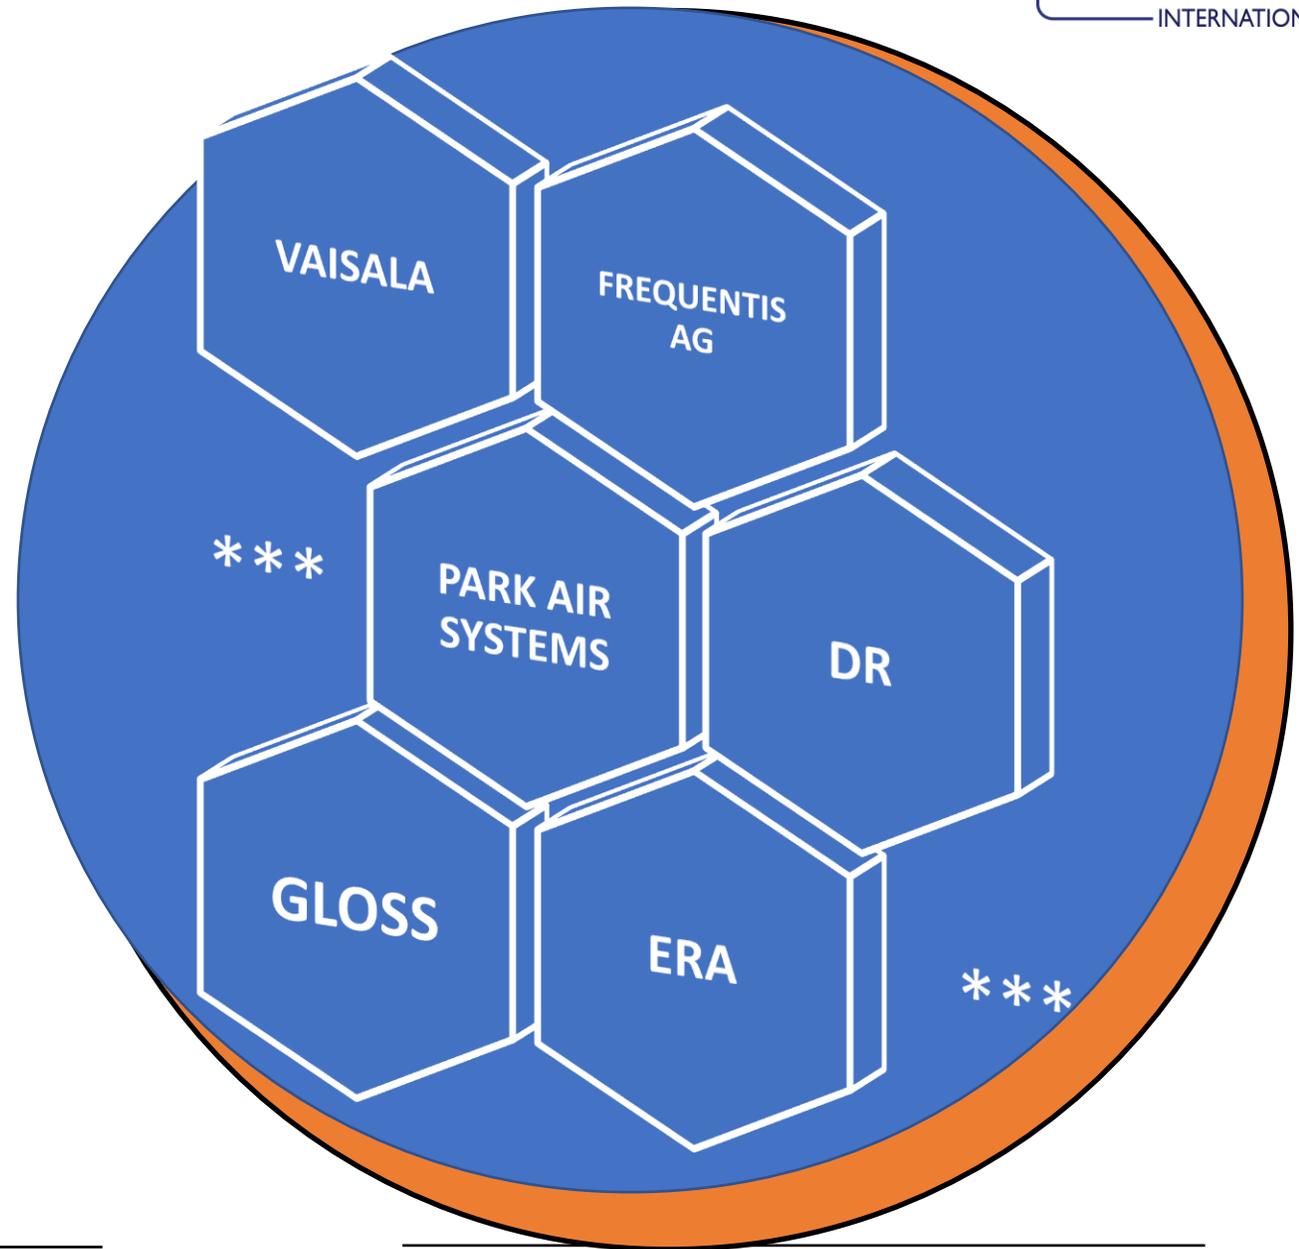

One-Year Warranty is typical but Morcom is open to negotiate longer terms with customer.

ISO 9001:2015

# FREQUENTIS AG

FREQUENTIS covers the full portfolio of Air Traffic Management Solutions (ATM) including:

- Voice Communications Systems (VCS)
- Aeronautical Information Management Systems (AIM)
- Aeronautical Message Handling Systems (AMHS)
- ATIS/VOLMET Systems
- Air Traffic Control Tower Automation (Digital Tower)
- Remote Towers
- Departure Manager
- Aeronautical Network Management
- Satellite Communication Systems

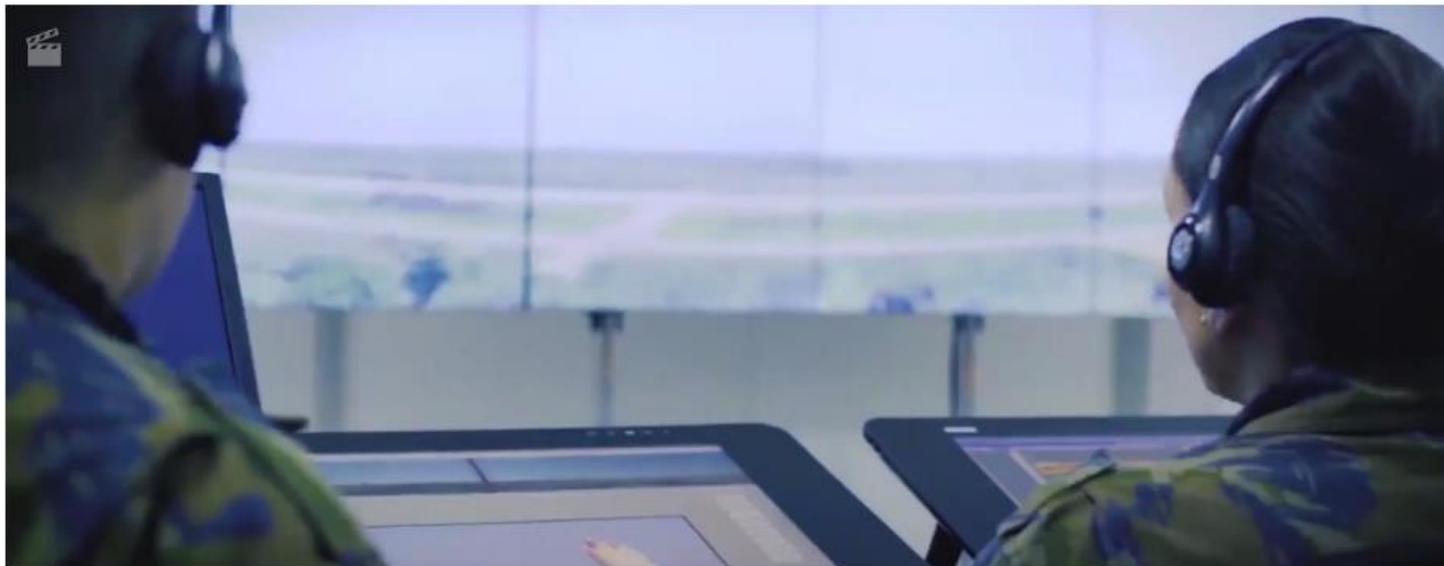

# Successful Projects-FREQUENTIS AG

Digital Tower

## Brazil Santa Cruz Airport – Digital tower

Mil ATC airport

16 screens

Videowall for unrivalled situational awareness

6 months

delivery time

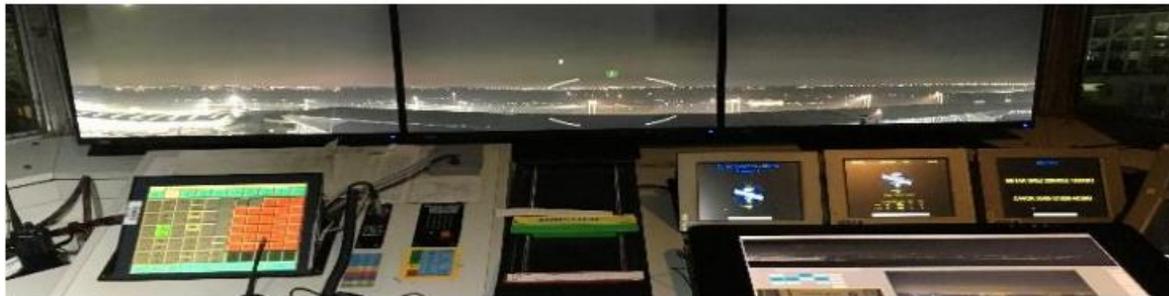

» Digital support tools like automatic object detection, surveillance labeling, image recognition and tracking are some of the major benefits of this solution that will support the safety-critical and high pressured work of controllers.” **Major-Brigadeiro Engenheiro Fernando Cesar Pereira Santos, President of CISCEA**

# Successful Projects-FREQUENTIS AG

## Remote Digital Tower

### Argentina – Ezeiza International Airport Buenos Aires

Improving situational awareness during airport expansion

61k

current  
movements p.a.

52gates

Up from  
currently 27

» “Ezeiza International Airport aims to increase the airport capacity to meet air traffic demand. By digitalising tower services with us they ensure safe and efficient airport operations are maintained during and following construction works.” - Hannu Juurakko, Vice President ATM, Frequentis

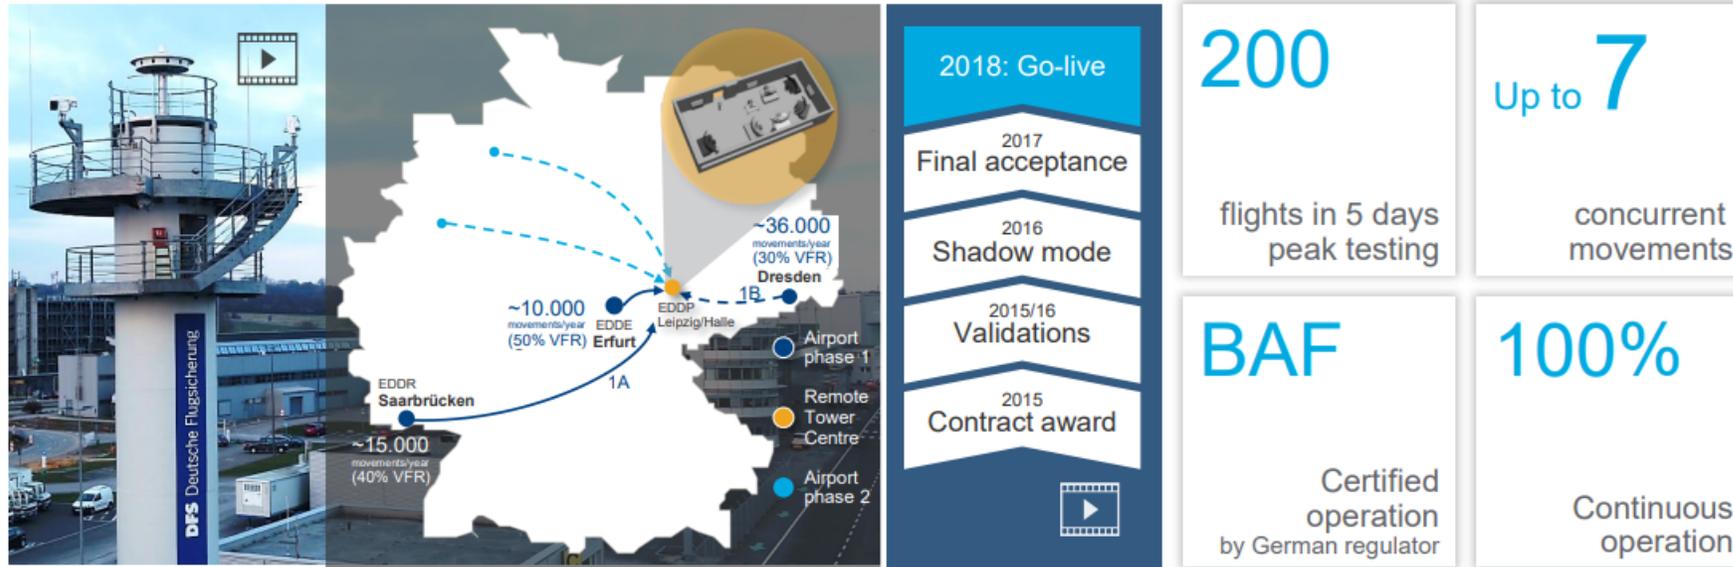

# Successful Projects-FREQUENTIS AG

## Remote Tower

[more info](#)

**DFS: Remote Tower Centre Leipzig to control 3 airports from remote**  
 First approved remote tower solution managing airports with complex IFR/VFR traffic

» “Our remote tower concept is based on a unique technological and operational solution. Efficiency will be improved and costs reduced. Plus, the proficiency and know-how of air traffic controllers can more easily be maintained” - Klaus-Dieter Scheurle, CEO DFS

# Successful Projects-FREQUENTIS AG

NAVIAIR

Remote Digital Tower & AMAN system

## Combined Remote Digital Tower and Approach Center for Denmark

Managing surrounding air traffic for multiple airports and approach sectors

>50k  
flights @ Billund  
airport in 2019

up to 9 airports  
TWR & APP  
handled by  
ONE system

Test &  
Training  
Simulator based  
Trainings system  
for TWR & APP

iCWP  
APP functions  
Integrated with  
electronic strips  
(silent coordination)

» Naviar will establish the first combined remote tower & APP centre at Billund Airport, to manage surrounding air traffic for multiple airports and approach sectors

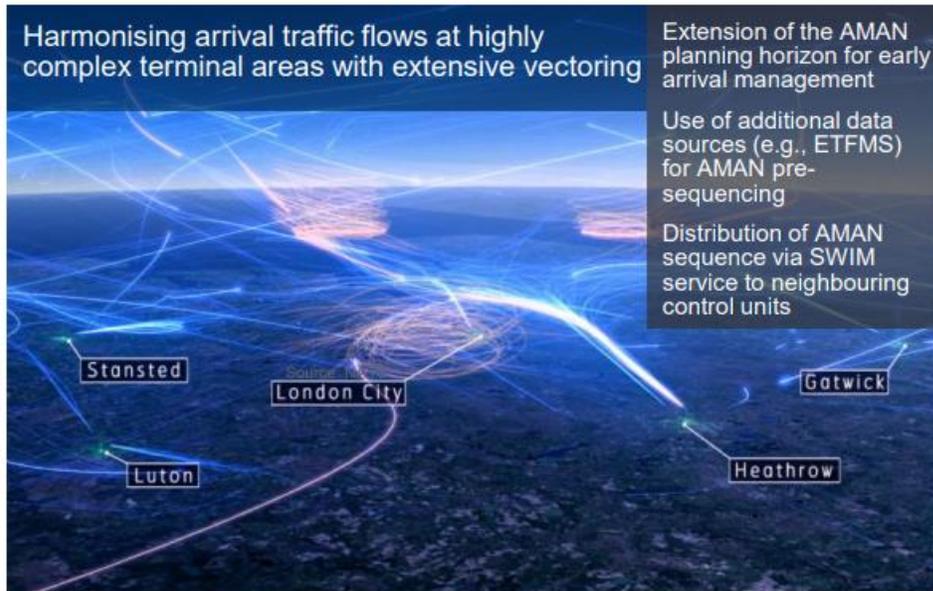

# Successful Projects-FREQUENTIS AG

## Extended and cross-border arrival management

A world's first

AMAN system

<p><b>London</b> E-AMAN &amp; XMAN</p> <p><b>Zurich FABEC</b> XMAN</p> <p><b>Toronto</b> E-AMAN</p>	<p><b>Significant reductions of fuel, emissions and noise</b> due to early delay absorption at higher altitudes</p>	<p><b>More balanced demand &amp; capacity</b> without impacting the overall duration of the flight</p>
<p><b>Efficiency gains and reduced controller workload</b> due to the improved coordination of control centres</p>	<p><b>8000t</b> CO<sub>2</sub></p> <p><b>2,12M</b> EUR in fuel</p>	

» "With early warning of XMAN, even flights that slow down by 0.03 of Mach could save several minutes in the stack. That reduction in speed reduces fuel as well."  
**Joe Baker, Project Lead at NATS**

# Successful Projects-FREQUENTIS AG

## VOLATIS System

### skyguide – VOLATIS: Cloud-based ATIS

Needed to centralise nationwide VOLMET and local ATIS messages from several airports

The system is connected to one centralised data link interface

Providing DATIS and DVOLMET services for all ATIS and VOLMET channels

Voice Broadcast distributed via a country wide radio network connected via E1 CAS line

12

Channels

8 ATIS  
2 glider  
2 VOLMET

All

maintained

via a centralised facility in Geneva

3

languages

Text-to-speech

English  
German  
French

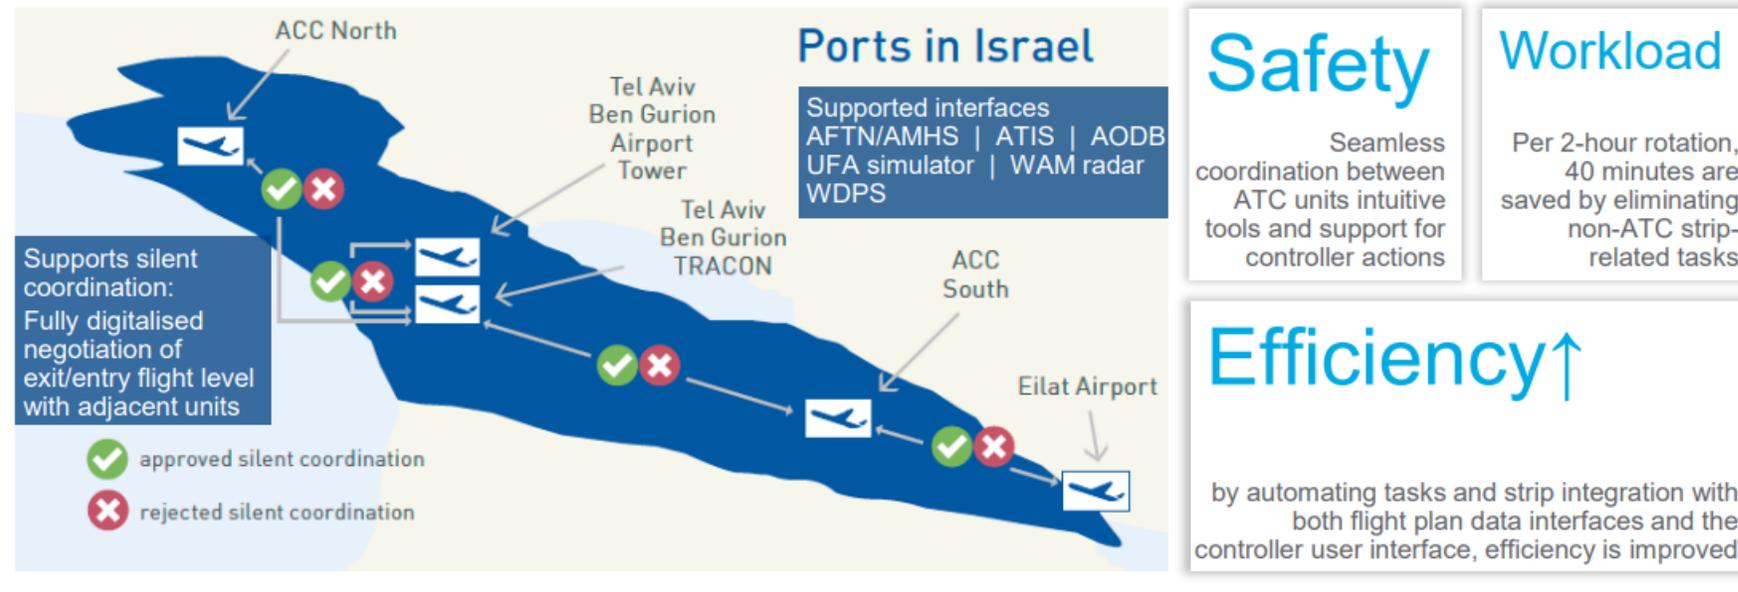

» „Frequentis was selected out of several offers due to its future oriented technical solution providing highest availability.“ - Philippe Chappuis, Head of strategic sourcing and procurement

# Successful Projects-FREQUENTIS AG

Smarttools and Smartstrips system

## IAA EFS/IODS – nationwide smartTOOLS and smartSTRIPS implementation

Need for harmonised ATC Information System and nationwide VOLMET and local ATIS

» “Efficiency is a lot better. Non-ATC tasks, such as putting strips into holders or verbal coordination with other units, have now been eliminated. The controllers have more time to do their actual work.”

# Successful Projects-FREQUENTIS AG

EFS system & Voice Communication

## Hong Kong CAD – Long Term Partner

Rely on Frequentis EFS System and Voice Communication

Supports Jurisdiction management systems with silent coordination mechanisms to efficiently manage ground movements multiple controllers are involved in

Supported interfaces, EFS  
FDPS (AT3) | ATIS | AMAN  
AODB | DCL (ED-85A)  
WDPS

Voice services  
130 positions

**Usability**  
Integrated solution replaces several legacy systems  
Designed by „ATCs for ATCs“

**Cost**  
Flexibility / adaptability keeps cost of operating smartSTRIPS low

**Efficiency↑**  
level of integration gives the controller better data, hence allows controllers to make better decisions and to maintain their situational awareness

**Voice Services**  
Voice Communication System Rollout

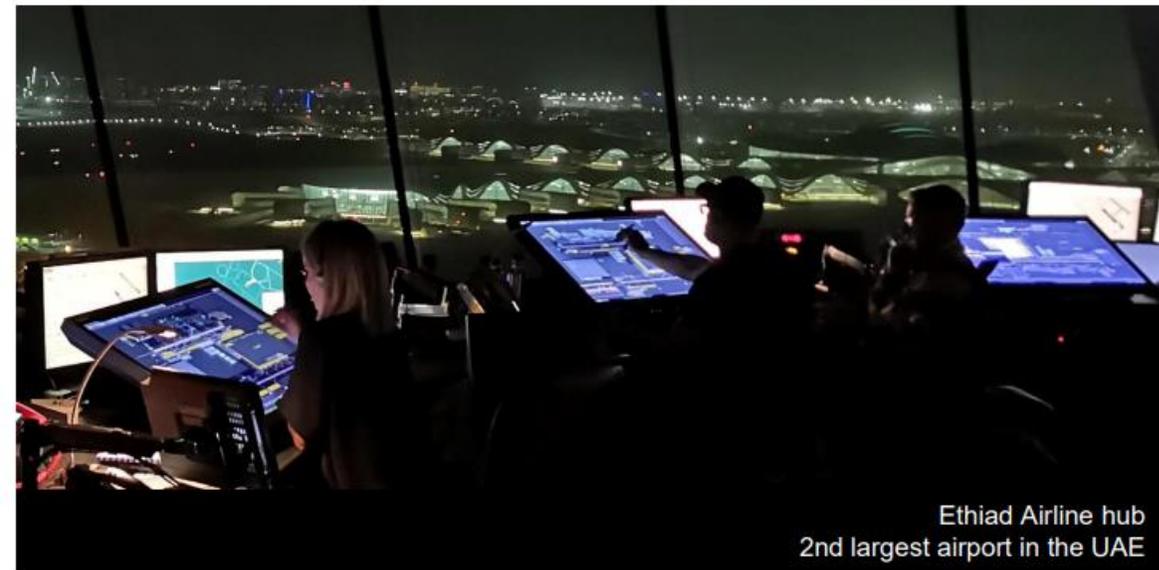

» “Operational feedback from controllers in various parts of the world indicated that the Frequentis systems provide a highly reliable and user-friendly experience, thereby enhancing safety and efficiency”

# Successful Projects-FREQUENTIS AG

## FREQUENTIS ATRICS-TOWER PAD

### Abu Dhabi International Airport | Single screen ICWP

Surveillance, safety, routing and guidance

Ethiad Airline hub  
2nd largest airport in the UAE

#### TowerPad

Integrated  
Controller Working  
Position (iCWP)

#### Safety Net feat.

detection,  
prediction,  
prevention,  
protection, ATC  
conformance and  
conflict monitoring  
and alerting

#### Digital operations

incl. ATC role  
management, "Next  
Clearance"  
workflow

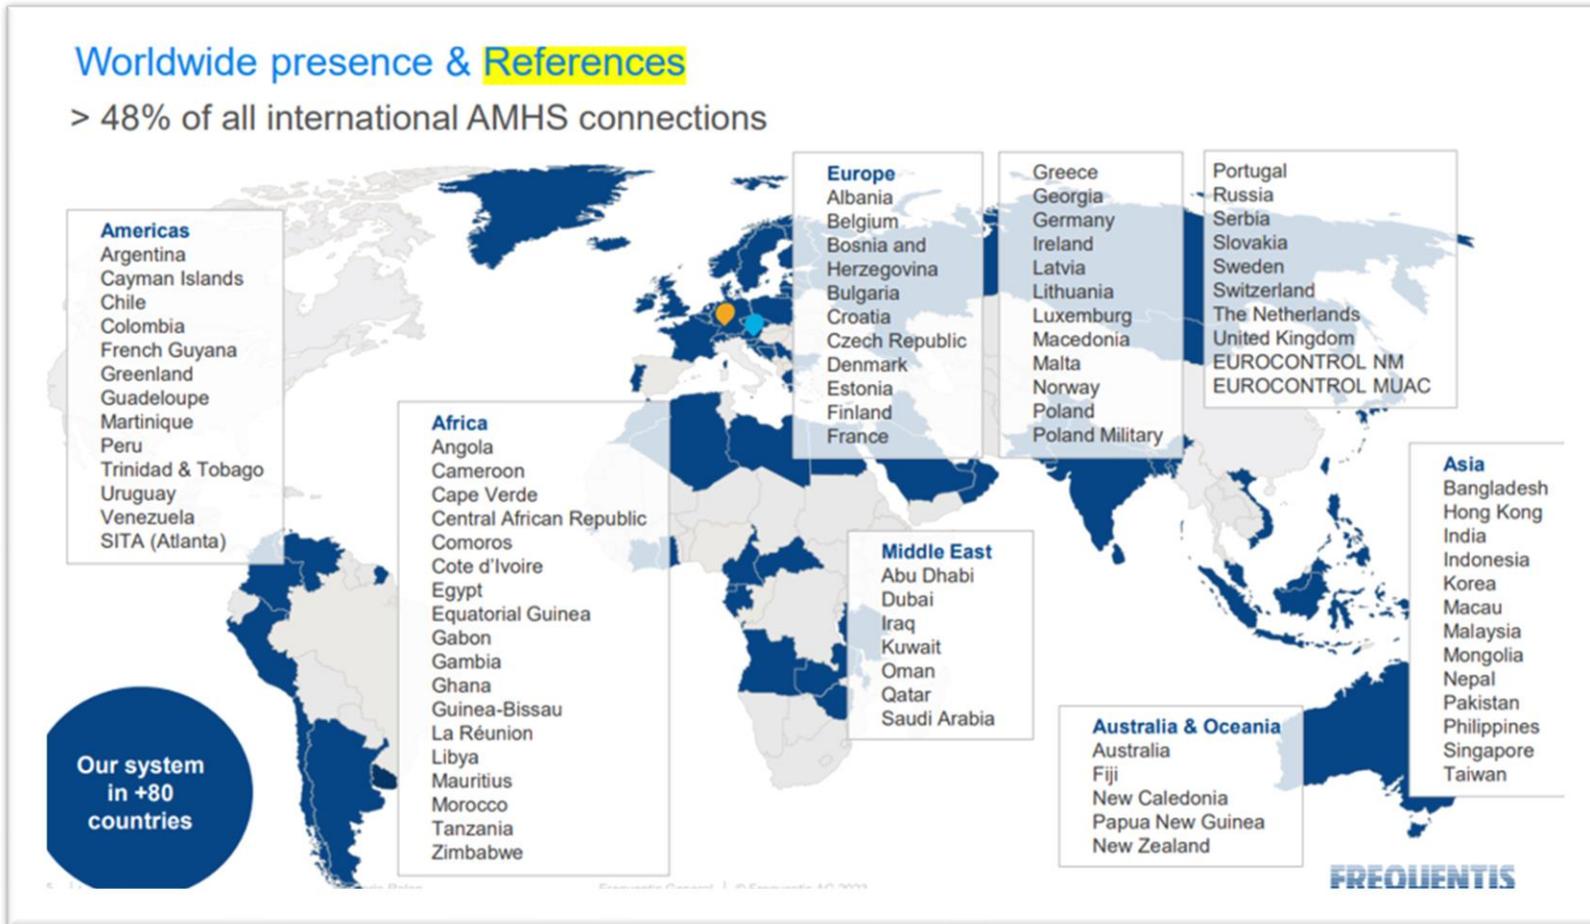

#### ALCMS

incl. semi-  
automatic routing,  
predefined static  
and dynamic  
guidance

» "At Abu Dhabi International Airport we are constantly setting new benchmarks in delivering a world-class traveler experience and a state-of-the-art airfield with faster turnaround, while remaining committed to safety," –  
**His Excellency Engineer Mohamed Mubarak Al Mazrouei**, CEO, Abu Dhabi Airports

# Successful Projects-FREQUENTIS COMSOFT

## AMHS SYSTEM

# Successful Projects-FREQUENTIS COMSOFT

## AMHS SYSTEM

**MHS Solution: Message Handling System**  
World's most mature product portfolio

			<b>#1</b> Market leader in MHS	<b>100 +</b> installed systems worldwide
<b>Integrated AFTN/AMHS message switch</b>	<b>ATN/EDS directory server</b>	<b>Client/server based AFTN/AMHS user terminal</b>	<b>&gt; 48%</b> of all internationally recognised MHS links comprise a Frequentis Comsoft system	
<b>AIDA-NG</b>	<b>CADIR</b>	<b>CADAS-ATS</b>	<b>+ 20 years</b> expertise in message handling	<b>SWIM</b> SWIM Compliance Web Services Interfaces
			<b>&gt; 50.000</b> test cases witnessed by FAT inspection teams since 2005	
			<b>ATS</b> MHS UA terminal system for ATS end user	<b>Safety</b> ED-153 conformant

# Successful Projects-FREQUENTIS COMSOFT

## AMHS SYSTEM

Argentina, EANA (Empresa Argentina de Navegación Aerea) 2021

**Direct Contract**

No competition, just technical clarifications

Scope:  
Operational redundant,  
Contingency redundant and single test.

**Premium**

Maintenance package for 2 years

10 Months to deliver the system  
7 International connections

Location:  
Buenos Aires, Argentina.

» First contingency system in fully virtualized environment

# Successful Projects-FREQUENTIS COMSOFT

## AMHS SYSTEM

### INAC, Venezuela

Interregional Gateway to North America, the Caribbean and Europe

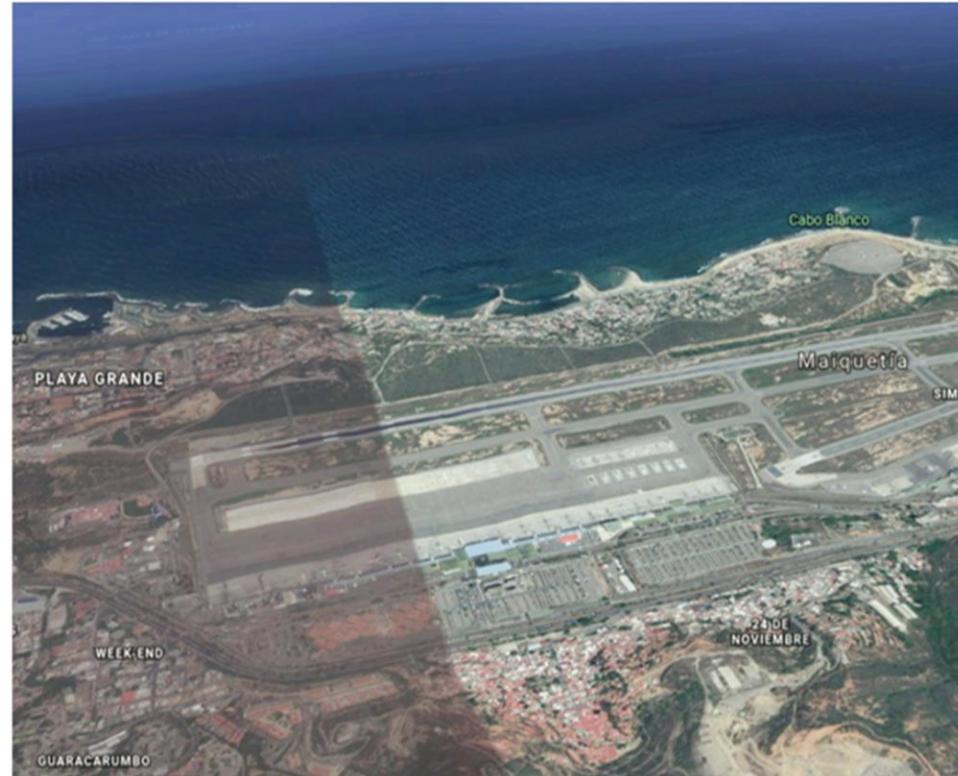

AMHS central node  
>200 AMHS national terminals  
Deployment in the extremely short time frame of 6 months

### Items

- Project: VE-AMHS Site: Caracas Maiquetía
- Solution consists of an AMHS Messaging System, AFTN switch, and AFTN/AMHS gateway
- A remote access router allows remote maintenance
- Quick and easy interconnection with Colombia and Perú in less than two weeks
- The Project was completed in a record time of 6 months from the award of the contract to the commissioning of the operational service.

# Successful Projects-FREQUENTIS COMSOFT

## AMHS SYSTEM

### DSNA, France & Skyguide, Switzerland

2 countries, 3 sites, 5 redundant systems  
 ≈ 200 AMHS terminals

Identical MHS systems strengthen relationships  
 between partners, another step towards closer  
 international collaboration

### Items

- Project: **MESANGE** un joint Project of **DSNA** and **skyguide**
- Sites: **Burdeos**, **Toulouse** and **Ginebra**
- DSNA Configuration: **3 redundant systems**, **13 hubs** at 10 remote sites, up to **150 CADAS user terminals**.
- Skyguide configuration: **2 redundant systems**, **1 single contingency system**, up to **40 CADAS AMHS UA/AFTN user terminals**
- Associated systems guarantee **interoperability** and facilitate the immediate transfer of **bilateral AMHS traffic**
- AMHS Connections between the entire associated systems**, most neighboring **European countries** and the **CFMU in Brussels**.

# Successful Projects-FREQUENTIS COMSOFT

## AMHS SYSTEM

### DFS Germany

Operational in one of the areas with the highest density of European air traffic

**First system world ECG**  
according to Eurocontrol requirements

© DFS Deutsche Flugsicherung GmbH

### Items

- Project: **ANDRA**
- Sites: **Langen and Karlsruhe**
- **Two redundant systems, one redundant test system**
- **DFS used AIDA-NG for the world's first AMHS operational connection with Spain in 2006**
- **DFS is the first user of the European Directory Service (EDS) provided by EUROCONTROL AMC**

# PARK AIR SYSTEMS

Park Air specializes in the manufacture and supply of air to ground radio communications systems in VHF and UHF:

- VHF-AM Transmitters
- VHF-AM Receivers
- VHF-AM Transceivers
- UHF-AM Transmitters
- UHF-AM Receivers
- UHF-AM Transceivers
- VHF/UHF AM/FM Military Transceivers

# DR REPRESENTATIONS

DR manufactures an extensive range of technical furniture and consoles which are highly adaptable to the characteristics of each project to meet the customer's every need. Their products are highly appreciated in air traffic control centers, air traffic control towers, 911 dispatch centers, all type of radio-communication control centers:

- Scout Console
- Alyssa Console
- Furniture for all types of Control Centers(including Chairs)

# GLOSS

Gloss is specialized in lightning systems for airports. Specifically solar powered solutions:

- Airfield Ground Lights for Approach, Runway and Taxiway
- Plasma Flat Lamp
- LED Lighting systems for streets
- Tunnel LED lights
- Solar Lights for airport applications (runways/taxiways lights, PAPI, Signs)
- Solar lights for marine applications (lanterns, beacons, sector lights)
- Solar light solutions for roads, highways, parking areas

# ERA

ERA (a member of OMNIPOL group) is a leading company in multilateration, multistatic surveillance, and reconnaissance technology. Unrivalled experience in passive surveillance sensor development provides ERA with unique know-how to deliver comprehensive solutions for global markets. It develops, manufacture and implement mission-critical systems for military and civil purposes:

- Multilateration (MLAT) Surveillance Systems for Airports
- Automatic Dependent Surveillance Systems - Broadcasting (ADS-B)
- Wide Area Multilateration (WAM)

A large, blue, stylized opening quotation mark is positioned in the top-left corner of the yellow text box.

AVIATION IS PROOF THAT GIVEN THE  
WILL, WE HAVE THE CAPACITY TO  
ACHIEVE THE IMPOSSIBLE.

Edward Vernon Richenbaucher

A large, blue, stylized closing quotation mark is positioned in the bottom-right corner of the yellow text box.
