

Concept Note

Civil Aviation Master Planning (CAMP): An Overview

For Director Generals of Civil Aviation

An ICAO Workshop

This two-hour / three-hour workshop provides an overview of the Civil Aviation Master Planning (CAMP) process and alignment with ICAO Long Term Strategic Plan and goals. It is a highly condensed version of the full course.

Intended Audience:

- Director General of Civil Aviation Authorities (CAA)
- Senior and middle managers involved in the planning, development, approval, implementation, or oversight of the Civil Aviation Master Plan (CAMP), from strategic, technical, operational, perspective.
- Civil aviation industry stakeholders,
- Related ministries/agencies involved with Civil Aviation

Note: The CAMP 5-day course is available (and recommended) for all Senior and middle managers of the National CAA.

Workshop Goal:

The workshop provides participants with an overview of the development, implementation, and updating of a Civil Aviation Master Plans (CAMP), including the alignment with national development plans and the United Nations 2030 Sustainable Development Goals (SDGs), in accordance with the relevant ICAO provisions.

Expected Outcomes:

After successful completion of the workshop, participants will acquire an overview of the steps required to:

- Prepare for a CAMP
- Develop a CAMP
- Plan for the management and operation of a CAMP
- Create strategies to ensure sustainable economic and financial development of the civil aviation system.
