(Presented by the Secretariat)

SUMMARY

The MTF will review and update its work programme based upon updated executive summaries for each task attached to this working paper.

1. Introduction

1.1 The meeting will recall that the AFI OPMET MTF was established by Conclusion 16/54 of APIRG/16 meeting with terms of reference and composition as given in the **Appendix A** to this working paper. The Task Force held its first Meeting in Dakar, Senegal, in October 2009 and its second meeting in Johannesburg, South Africa, in September 2010.

1.2 Under this agenda item, the Task Force will also undertake the review of its work programme given in **Appendix B** to this paper.

2. Discussion

2.1 The Task Force will note that the composition of the MTF and its Terms of Reference shown in **Appendix A** is as described by APIRG during the establishment of the AFI OPMET MTF. The Task Force recalled that the Terms of Reference reflect the overall tasks of the MTF and need to be revised only when major changes are introduced to the MTF programme. Furthermore, any change would have to be subject to a draft conclusion to be endorsed by APIRG. The meeting agreed that there was no need to amend the terms of reference at this meeting.

2.2 The Task Force may wish to review its work programme shown in **Appendix B** to this working paper. When reviewing the work programme, the Task Force is expected to update the following elements:

- a) future work programme for 2012 to 2016; and
- b) executive summaries for each recurrent task.

2.2 It will be noted that the work programme will be subject to revision and consolidation in order to align it with the ICAO Business Plan and to better reflect the work that is being undertaken by the AFI OPMET MTF.

2.3 The Task Force is invited to review the draft work programme, endorse the changes proposed and formulate the following decision:

Decision 3/xx — Future work programme of the MTF

That, the work programme of the AFI OPMET MTF be updated as shown in Appendix B.

3. Action by the MTF

3.1 The MTF is invited to:

- a) note the information in this paper;
- b) review the draft work programme; and
- c) decide on the draft decision proposed for the task Force's consideration.
