SUMMARY
This information paper gives one of the components needed for the managerial service contracts

1. Introduction

1.1 AFI States have requested ICAO to develop specifications and guidelines for contracting Air navigation services which the Civil Aviation Authorities cannot perform or its best done by specialized entity.

2. Discussion

2.1 ICAO has identified ATM objectives for specified Airspace. Guidelines for defining the required communication support have also been identified. Doc 9869 is the Required Communication Performance Manual. States are encouraged to define the ATM objectives of their Airspaces and subsequent required Communication needed to support the ATM objectives. This should be a component in the managerial contract. **Attached** is a copy of Doc 9869.

3. Action to be taken by the Meeting

The meeting is to take note of the above information.
