This Working Paper is related to Strategic Objectives: A & B

1. INTRODUCTION

1.1 The meeting should recall that subsequent to APIRG Extraordinary Meeting (Lusaka, Zambia, July 2014) decision that ‘Projects’ would be identified by APIRG meeting, the APIRG Sub-groups, in their “old structural framework,” identified an initial set of projects, based on the ICAO Aviation System Block Upgrades (ASBUs) Modules and the regional performance objectives adopted by APIRG. The APIRG/20 and the APCC/1 meetings then reviewed the work done by the Sub-groups and endorsed the projects.

2. DISCUSSION

2.1 The APIRG Conclusion 20/49 requested the Secretariat to develop a consolidated catalogue of all identified projects, using a standard format, to be endorsed by the APCC and that, in doing so the Secretariat should ensure that these projects are structured according to applicable areas of routing.

2.2 Accordingly, a proposal prepared by the Secretariat based on benchmarking and the experience of other ICAO regions, and agreed by the joint AOP and ATM/SAR Sub Groups meeting, as the standard format to be used for all projects was submitted to the APCC/1. This Project Definition Template provided at **Appendix A**, will facilitate an interregional coordination.

3. ACTION BY THE MEETING

The meeting is invited to:

- a) note the information provided in this working paper;
- b) use the template to define the identified Projects.
