Air Transport Accessibility

Measuring people's access to the international air transport system

The app illustrates the fraction of a State's population living within 100 km of an aerodrome

- International aerodrome: regular flights to another State
- Other aerodrome: regular flights to an international aerodrome

Summary

In Congo, there are 2 international aerodromes as defined by the ICAO Air Navigation Plans.

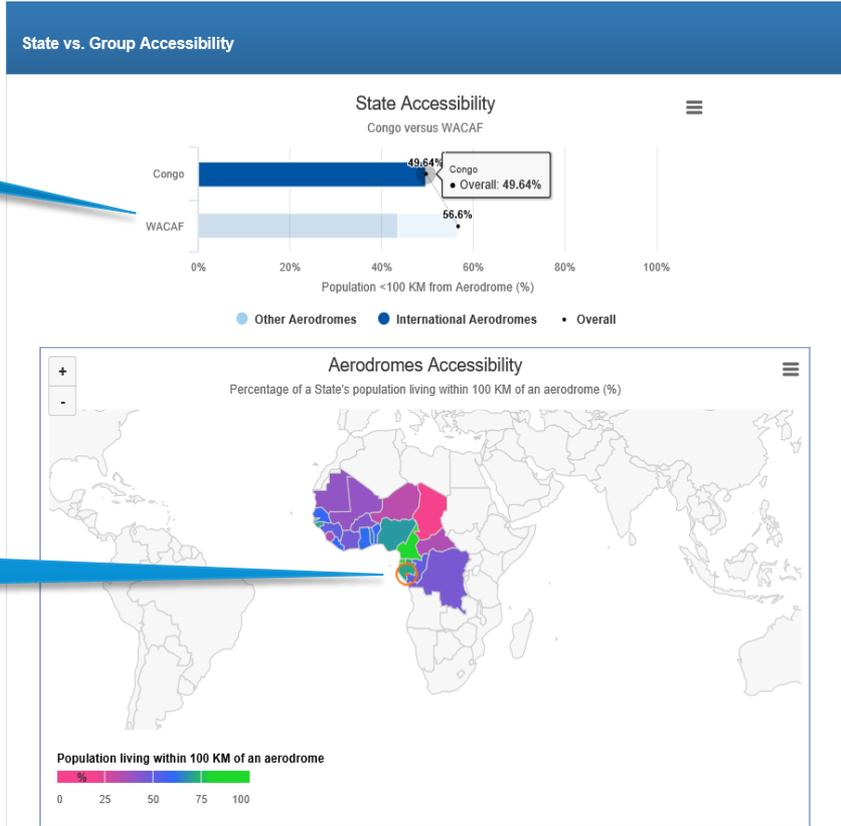

Using 2015 population data, 49.64% of Congo's population lives within 100 KM of an international aerodrome. When domestic aerodromes with at least one regular connection to an international aerodrome are also considered, the population's overall accessibility becomes 49.64% with 2 aerodromes in total.

Compared to the WACAF group, which has 56.6% overall accessibility, Congo is **less accessible** than the group's overall accessibility.
