# Background

*APIRG/24 Decision 24/07*

*APIRG/24 Decision 24/27*

*APIRG/24 Decision 24/ 28*

# Update of the Operational Instructions regarding the Volcex

## Rationale

- The Operational Instructions, providing **operational guidance** on conducting and reporting on the volcanic ash exercise **were approved by APIRG in 2021.**
- The VOLCEX Steering Group established by APIRG, **reports to the APIRG** in accordance with **APIRG mechanism.**
- In 2024, APIRG and RASG-AFI were merged into a single entity named Africa-Indian Ocean Aviation System Implementation Group (**AASPG**) with a new Procedural Handbook.
- **Amendment 82 of Annex 3** to Chicago Convention **were adopted in April 2025** for **applicability date in November 2025.**
- Lessons learned from the two volcanic ash conducted in 2021 and 2023.
- Need to review the Operational Instructions regarding the Volcex to ensure their **alignment with the new provisions.**

## Note on the update of the VOLCEX related Operational Instructions
