Aviation health Plan

- developed under the direction of the MPSG
- address the management of health in aviation
 - medical certification of aviation licence holders
 - safeguarding the health and safety of aviation personnel and passengers
 - supporting aviation personnel in the performance of their duties
 - supporting the continuous, safe, and orderly operation of global air services during public health events

PANS - Health

- A comprehensive aviation health resource with relevant processes and procedures
- *Procedures for Air Navigation Services (PANS) – Health* document
- supplementing the ICAO SARPs
- supported by a digitized information sharing platform
- several parts e.g. Health Risk Assessment Models in aviation, Occupational Health Principles in aviation, Health Promotion in aviation, Mental Health in aviation, Passenger health during the journey, etc.
