

**DANGEROUS GOODS PANEL**

**Frankfurt, 16 to 20 September 2002**

**Agenda Item 2: Development of recommendations for amendments to the Technical Instructions  
for incorporation in the 2005/2006 edition**

**UN 2037, RECEPTACLES, SMALL, CONTAINING GAS**

(Presented by P. Steele)

**1. INTRODUCTION**

1.1 An agenda item at the recent UN experts meeting was paper ST/SG/AC.10/C.3/2002/7 from the European Liquefied Gas Association. The paper proposed the addition of the words "fitted or not with a valve" to the description for UN2037.

1.1.2 The Australian member at the UN has been unable to confirm the status of the paper. If that paper was not dealt with or was unsuccessful, this paper is not necessary and is withdrawn.

**2. PROPOSAL**

2.1 If the paper was accepted the Panel may wish to consider whether it would then be appropriate to continue permitting this UN number to be transported on passenger aircraft, where normal cylinders are forbidden.
