

WORKING PAPER

**DANGEROUS GOODS PANEL (DGP)
WORKING GROUP MEETING (DGP-WG/16)**

Montreal, 17 to 21 October 2016

Agenda Item 2: Development of recommendations for amendments to the *Technical Instructions for the Safe Transport of Dangerous Goods by Air (Doc 9284)* for incorporation in the 2019-2020 Edition

2.4: Part 4 — Packing Instructions

OUTER PACKAGING TYPES FOR PACKING INSTRUCTIONS 967 AND 970

(Presented by B. Carrara)

SUMMARY

This working paper invites the DGP-WG to amend Section I of Packing Instructions 967 and 970 as shown in the appendix to this working paper.

Action by the DGP-WG: The DGP is invited to revise Packing Instruction 967 to include the types of outer packagings applicable to Section I and to delete “strong outer packaging” from Section I of Packing Instruction 970.

1. INTRODUCTION

1.1 A dedicated working group at the Dangerous Goods Panel Working Group Meeting in 2015 (DGP-WG/15, Montréal, 27 April to 1 May 2015) revised the provisions in the lithium battery packing instructions. Among other changes, the permitted types of outer packagings were included.

1.2 At that time, the DGP replaced the expression “strong outer packaging” in Sections IB and II of each applicable packing instruction. The types of outer packagings were added to Section I of Packing Instruction 970 but not to Packing Instruction 967.

1.3 At the same time, a minor revision was left since the expression “strong outer packaging” was not removed from Section I of Packing Instruction 970.

2. **ACTION BY THE DGP-WG**

2.1 The DGP-WG is invited to amend Section I of Packing Instruction 967 as shown in the appendix to this working paper.
