REQUIREMENTS RELATING TO 5H1 PACKAGINGS

(Presented by Adrian Tušek)

SUMMARY

This paper proposes amendment to Table 6-2 to provide a cross reference to 5H1 packagings in 6;3.1.15.

Action by the DGP-WG is in paragraph 2.

1. INTRODUCTION

1.1 Table 6-2 provides an index of packagings other than inner packagings and when checking these by code the reader is directed to a relevant paragraph in Part 6.

1.2 In relation to 5H1, the reference states “specialized use only” and a paragraph number is not listed.

1.3 The relevant paragraph number for 5H1 should be indicated as 3.1.15 and the maximum net mass should be shown as 50 kg in accordance with 6;3.1.15.

1.4 Part 6;3.1.15 is identical text as shown in the UN Model Regulations 6.1.4.16.

1.5 It is not proposed to remove the words “Specialized use only” as the only packing instruction referencing 5H1 is Packing Instruction 116 in the Supplement to the Technical Instructions.

1.6 The use of 5H1 for Packing Instruction 116 relates to Explosive, blasting of various types including B-C-D and E variants and is therefore a specialized use in the context of air transport.

2. ACTION BY THE DGP-WG

2.1 The DGP-WG is invited to:
