

Instructions for posting

States are invited to send their implementation plans, their focal point details and their Notification of compliance with or differences from language provisions in Annexes 1, 6, 10 and 11 as necessary to ICAO by e-mail at fls@icao.int.

These documents should be transmitted in .pdf format.

When the implementation plan is provided in a language other than English, States are strongly encouraged to provide an English translation. This will facilitate ICAO's review of the implementation plans.

Please note that only complete plans in compliance with the guidelines for the development of a language proficiency implementation plan will be posted on the FSIX website.
