

INTERNATIONAL CONFERENCE ON AIR LAW

(Montréal, 20 April to 2 May 2009)

CONVENTION ON COMPENSATION FOR DAMAGE CAUSED BY AIRCRAFT TO THIRD PARTIES AND CONVENTION ON COMPENSATION FOR DAMAGE TO THIRD PARTIES, RESULTING FROM ACTS OF UNLAWFUL INTERFERENCE INVOLVING AIRCRAFT

(Presented by the Air Crash Victims Families Group)

1. INTRODUCTION – SUPPLEMENTAL AND OTHER COMPENSATIONS

1.1 The apocalyptic terrorist attack by the means of four hi-jacked planes committed against the World Trade Center in New York, NY , the Pentagon in Arlington, VA and the aborted flight ending in a crash in the rural area in Shankville, PA ON September 11th, 2001 is the only real time example that triggered this proposed Convention on Compensation for Damage to Third Parties from Acts of Unlawful Interference Involving Aircraft.

1.2 It is therefore important to look towards the post incident resolution of this tragedy in order to adequately and pro actively complete ONE new General Risk Convention (including compensation for ALL catastrophic damages) for the twenty first century.

2. DISCUSSION

2.1 Immediately after September 11th, 2001 – the Government and Congress met with all affected and interested parties resulting in the “*Air Transportation Safety and System Stabilization Act*” (*Public Law 107-42-Sept. 22,2001*).

2.2 This Law provided the basis for Rules and Regulations for:

- a) Airline Stabilization;
- b) Aviation Insurance;
- c) Tax Provisions;
- d) Victims Compensation; and
- e) Air Transportation Safety.

2.3 The Airline Stabilization Act created the legislative vehicle needed to reimburse the air transport industry for their losses of income as a result of the flight interruption due to the 911 attack. (427 Carriers received payments in the amount of \$4,638,361.10.)

2.4 Aviation Insurance assistance was provided by the government for affordable Rates up to \$100,000,000.

2.5 Tax Provisions allowed carriers extension of the due date for excise tax deposits and treatment of their loss compensation.

2.6 Victims Compensation triggered the creation of a “September 11th Victim Compensation Fund of 2001” (5,560 Victims were awarded a total of \$7,049,415,536.64 in damages).

2.7 Congress affirmed the President’s decision to spend \$3,000,000,000 on Airline safety and security in order to restore public confidence in the airline industry.

2.8 On March 13, 2002 the Department of Justice published the Final Rules of the September 11th Victims Compensation Fund of 2001 – 28 CFR Part 104 – *Federal Register / Vol 67, No 49 – pages 11233 – 11247*).

2.9 In order to obtain reimbursement for their losses victims could bring their claims before:

- a) the Victims Compensation fund – in a non judicial fast track damages resolution; or
- b) commence judicial proceedings and let the courts determine the extent of their damages.

2.10 7,403 Victims filed claims with the Victims Compensation Fund (2,968 claims for wrongful death and 43435 claims for physical injuries) on which 5,560 victims received awards ranging from \$500 minimum to \$8,597,732 maximum.

2.11 Ninety-five Claims were filed or referred to the United States Federal Court for the Southern District of New York and assigned to Judge Alvin K. Hellerstein who appointed a mediator to facilitate damages settlements. Ninety-two cases were settle so far. Three cases are still open, because of those victims insist through legal proceedings on the release of still classified documents.

3. CONCLUSION AND APPENDIXES

In New York. (The aftereffects resulting in lung and other deceases are still ongoing).

3.1.17 **Cost Associated with the Administration of the September 11th Victim Compensation fund**

3.1.17.1 **Comment:** It should be noted that the costs were only 1.2% of the damages awarded and that 90% of the cost were paid to contractual third party providers/subcontractors for evaluating and processing the claims.

3.1.18 **Legal Costs**

- a) The Special Master and his Office served on a pro bono basis;
- b) Claimants attorneys served on a pro bono basis or at reduced fees of 10-15%; and
- c) Judge Hellerstein allowed attorney contingency fees of up to 15% in his court.

3.1.19 The average damages award of \$2,1 Mio was 40% lower than the Federal Guidelines in the evaluation of the cost/benefit analysis for repair of victims economic and non economic losses – taking into account statutory offsets.

3.1.20 In comparison with damages recoverable in other countries than the United States differences have to be considered like (a) Social benefits available (b) average national income level (c) cultural differences (d) availability of other assistance (e) differing local and State laws, other resources, etc.

3.2 **Payments to air transportation companies**

APPENDIX B

As of Friday, October 10, 2003, payments have been transmitted to air carriers listed below in accordance with sections 101 and 103 of the Air Transportation Safety and System Stabilization Act, Public Law 107-42. DOT has received over 400 applications for compensation, and an expanded review staff is working full-time in processing them. Because of variation in the completeness and accuracy of the applications, the review staff is not able to predict when any particular carrier will receive payment. Applicants should be aware that responding to routine calls for payment status will delay staff progress in processing the applications. Carriers that have received compensation and have not filed a third round claim, be advised that the Department has established a firm deadline of July 29, 2002, for RECEIPT of a complete third round application. The completion and submission of a third round application by July 29, 2002, is required, even if further claim for compensation is not being made. Carriers that have received compensation and do not file third round claims by July 29, 2002, should be prepared to refund all payments received under this program.
