### FREIGHT TRAFFIC

#### Freight Tonne-Kilometres - FTK

World freight traffic grew by +2.3% in June 2014 compared to the same period last year, which is slightly lower than the +4.7% growth in May 2014. Freight Tonne-Kilometres grew at a slower pace than the freight capacity growth (+2.6%) in June 2014.

The growth of world freight traffic is expected to remain positive for the following months. World trade volume has been improving since the 2nd quarter of 2014, and economies in the developed countries are recovering steadily, which should support the world air freight traffic growth.
