ONLINE PRODUCT

ICAO Aeronautical Charges Online

Product Description

ICAO Aeronautical Charges Online lists the charges for Airports and Air Navigation Services levied in 187 States and Territories. It includes the following information:

- Aircraft landing/take-off charges
- Lighting charges
- Aircraft parking charges
- Aerobridge charges
- Passenger service charges
- Security charges
- Infrastructure charges
- Cargo charges
- Hangar charges
- Fuel charges
- Environmental charges (noise/emissions)
- Air navigation charges (en-route/approach/ aerodrome control)

Product Utility

ICAO Aeronautical Charges Online is the most comprehensive, up-to-date worldwide data collection on airports and air navigation services charges. It is an economic way to stay informed about user charges compared to other competitive products on the market.
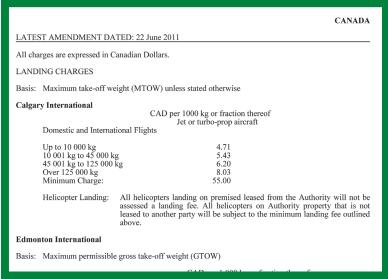

ICAO updates the charges information frequently – as soon as new rates are submitted by its member States. The data set can be searched on a State-by-State basis and can be exported as PDF files, which are printable. Access to ICAO Aeronautical Charges Online is granted on an annual basis for a reasonable subscription fee.

Target Audience

This product is intended for use of airlines, airports, air navigation services providers, CAAs, and aviation manufacturers. In addition, aviation-focused consultants and academics may find it useful for research and planning.
